## Informational Webinar on the California Teleconnect Fund

The California Public Utilities Commission (CPUC), in ongoing efforts to bridge the digital divide, will hold a free webinar on the California Teleconnect Fund (CTF), which provides eligible organizations with discounted rates on select telecommunications and broadband services. During this virtual event, CPUC staff will discuss the program's history, mission, and how to qualify.

The CTF is dedicated to ensuring that eligible California organizations have access to discounted telecommunication services. This initiative aims to promote digital equity and enhance the quality of life for all Californians. During the webinar, CPUC staff will cover the following topics: background of the CTF program; eligibility criteria; CTF funding, subsidies, and budget sources; telecommunication services supported by CTF; the impact of the CTF program and its participants; and challenges faced and future developments ahead. For questions about the CTF or for technical assistance, please contact [CTFOutreach@cpuc.ca.gov](mailto:CTFOutreach@cpuc.ca.gov).

Attendees should register in advance of the webinar. Video and call-in options will be provided through email after registration:
