**Re: Giggle Fiber, LLC Amended Franchise Application**

Dear Mr. Morris:

Enclosed, please find the original and one hard copy of an application by Giggle Fiber, LLC (the "Company") to amend its franchise, along with a CD-ROM containing supporting documentation. By this amendment, the Company is both expanding and providing corrected descriptions of its existing service area. A bond rider, increasing the amount of the Company's bond to reflect the service area expansion, is included. We are serving complete copies of the application by overnight delivery on the Cities of Arcadia, Bradbury, Covina, Duarte, El Monte, and Monrovia addressed to appropriate contacts, who are listed on the template included on the CD-ROM.

Further to prior discussions, we are confirming that the Company's channel lineup includes PEG channels as requested by affected municipalities and that PEG capacity will continue to be available in accordance with applicable law. In addition, we are confirming that the Company has obtained all programming consents and filed made all necessary Copyright (Compulsory License) filings that are required in connection with its offered programming.

Please advise if you have any questions or if any further information is required in connection with the attached application.

Very truly yours,

John L. Clark
