

Notice of IRP Workshop on Mid-term Reliability Analysis and Proposed Procurement Requirements Ruling

Energy Division staff will host a workshop on the **Mid-term Reliability Analysis and Proposed Procurement Requirements Ruling** on Wednesday, March 10, 2021, from 2pm – 4:30pm PST.

The purpose of the workshop is to help stakeholders understand the analysis and proposed procurement requirements that was made available by the Administrative Law Judge’s (ALJ) Ruling dated February 22, 2021. The timing of the workshop is intended to help inform party comments and reply comments to the ALJ ruling.

- ALJ ruling is available at: <https://docs.cpuc.ca.gov/PublishedDocs/Efile/G000/M367/K037/367037415.PDF>
- **Webinar objective:** Energy Division staff will explain and discuss the analysis conducted to assess mid-term electric system reliability need that is driven in large part by the planned retirement of the Diablo Canyon Nuclear Plant, as well as suggested modifications to the planning reserve margin (PRM), updated effective capacity accounting, and updated demand forecast.
- **Preparation:** Stakeholders can ask questions during the Q&A segments of the workshop. Workshop slides, including the agenda, will be made available shortly beforehand at the IRP Procurement Track webpage: <https://www.cpuc.ca.gov/General.aspx?id=6442463413>
- **Workshop recording:** The workshop will be recorded, with the recording posted to the above webpage afterwards.

Public Workshop Notice: R.20-05-003
