**Re: PacifiCorp (U 901-E) Advice Letter No. 622-E —Information-Only
PacifiCorp’s 2019 Interim Risk Spending Accountability Report**

PURPOSE

In accordance with Public Utilities Code (PUC) Section 591,¹ PacifiCorp, d/b/a Pacific Power (PacifiCorp), submits in information-only Advice Letter (AL) 622-E its 2019 Interim Risk Spending Accountability Report (Report). The Report is provided as Exhibit A.

BACKGROUND

In April 2019, the California Public Utilities Commission (CPUC) issued Decision 19-04-020 (Decision), Phase Two Decision Adopting Risk Spending Accountability Report Requirements and Safety Performance Metrics for Investor-Owned Utilities and Adopting a Safety Model Approach for Small and Multi-Jurisdictional Utilities (SMJUs). The Decision orders the SMJUs to file their first Risk Spend Accountability Reports (RSARs) following authorization in the General Rate Case (GRC) proceedings.

On April 12, 2018, PacifiCorp filed its most recent GRC application (A.) 18-04-002 and the Commission issued final Decision 20-02-025 in the proceeding on February 18, 2020. Therefore, the company files this RSAR based on the company’s previous GRC, Application 09-11-015, effective during the 2019 reporting period.

PROTESTS

Anyone wishing to protest this information-only AL may do so by letter sent via U.S. mail, by facsimile or electronically, any of which must be received no later than July 20, 2020. Protests should be mailed to:

¹ California Public Utilities Code § 591(a) states, “The commission shall require an electrical or gas corporation to annually notify the commission, as part of an ongoing proceeding or in a report otherwise required to be submitted to the commission, of each time since that notification was last provided that capital or expense revenue authorized by the commission for maintenance, safety, or reliability was redirected by the electrical or gas corporation to other purposes.”

Notes:

¹Per previous conversations with Michael Zelazo at the CPUC Energy Division, risk spending includes any FERC account which includes spending on safety, reliability and/or maintenance activities. The company has made good faith effort to include only accounts which meet this description. The amounts shown are inclusive of these activities that also map back to risk reducing programs as indicated, but also include other operating activities.

²Authorized capital was determined by starting with the capital in-service gross plant balances for each function authorized in the company's last General Rate Case, A.09-11-015, plus any major transmission or distribution capital addition projects approved for recovery in California rates in the company's approved PTAM Major Capital Additions filings subsequent to that rate case to determine 2019 "authorized" in rates amounts.

³Authorized costs were determined by starting with the costs included in the company's last General Rate Case, A.09-11-015, for the FERC accounts identified in Note #1 above and increasing annually for the company's approved PTAM Attrition filings to determine 2019 "authorized" in rates amounts
