Audio connection, toll-free: 1-866-859-2737

Participant code: 1682922

October 6, 2015	Description of topic	Time
Introduction		10 - 10:15
Utilities' presentation on example major gas and electric incidents	Utilities will present examples of gas and/or electric incidents to highlight the kinds of data collected in low frequency high consequence events. Utilities will discuss how these data could be used in their risk models.	10:15 - 11:30
break (10 minutes)		
Sufficient level of granularity in risk models	Tradeoffs between high granularity and data quantity, what are the solutions?	11:40 - 12:00
lunch (1.25 hours)		12:00 - 1:15
Should factors besides safety be used in determining ranking?	This item was already addressed in previous workshops. Included here again because it was mentioned in Scoping Memo. We will go over this very quickly for any last comments.	1:15 - 1:30
Guidance on Risk Assessment Mitigation Phase (RAMP)	Considerations for RAMP. SED will go over the major elements in D.14-12-025 as they relate to RAMP.	1:30 - 3:20
break (10 minutes)		3:20 - 3:30
Roadmap for SMAP proceedings	What should we achieve for this SMAP and what should we expect for the next couple of SMAPs?	3:30 - 3:45
Reaching agreement on what decisions Commission has to make in the SMAP		3:45 - 4:00
Next steps and concluding remarks	Deliverables and workshop #4 in December	4:00 - 4:30
