

May 3, 2021

**Advice 6182-E**

(Pacific Gas and Electric Company U 39 E)

Public Utilities Commission of the State of California

**Subject: Pacific Gas and Electric Company's Quarterly Advice Letter Pursuant to the Wildfire Safety Division's Compliance Operational Protocols and Assembly Bill 1054 Regarding the Implementation of Its Approved Wildfire Mitigation Plan and Its Safety Recommendations**

Pursuant to California Public Utilities Code (PUC) Section 8389(e)(7) and the Wildfire Safety Division's (WSD) *Compliance Operational Protocols* issued on February 16, 2021 (Compliance Operational Protocols), Pacific Gas and Electric Company (PG&E) respectfully submits this Tier 1 Quarterly Advice Letter (QAL) detailing the status of its current wildfire mitigation plan, recommendations of the most recent safety culture assessment, recommendations of the board of directors' safety committee meetings that occurred during the quarter, and a summary of the implementation of safety committee recommendations from the previous QAL submittal (if any).

**Background**

On July 12, 2019, Governor Newsom signed Assembly Bill (AB) 1054 into law adding Section 8389(e)(7) to the California Public Utilities Code. Section 8389(e)(7) requires, as one of the conditions to the executive director of the Commission issuing a safety certification, documentation of the following:

The electrical corporation is implementing its approved wildfire mitigation plan. The electric corporation shall file a Tier 1 advice letter on a quarterly basis that details the implementation of both its approved wildfire mitigation plan and recommendations of the most recent safety culture assessment, and a statement of the recommendations of the board of directors' safety committee meetings that occurred during the quarter. The advice letter shall also summarize the implementation of the safety committee recommendations from the electrical corporation's previous advice letter filing. If the division has reason to doubt the veracity of the statements contained in the advice letter filing, it shall perform an audit of the issue of concern.

On February 16, 2021, WSD issued the Compliance Operational Protocols which provided further guidance and requirements for electrical corporations filing QALs in addition to the existing requirements established by Section 8389(e)(7). Specifically, the Compliance Operational Protocols standardized the QAL submission dates across electrical corporations, describe the information and materials to be included in the QAL, and also require the submission of Wildfire Mitigation Plan (WMP) initiative progress in a separate document referred to as the Quarterly Initiative Update (QIU).

This QAL submission is for the first quarter (Q1) of 2021 pursuant to the requirements of AB 1054 and the Compliance Operational Protocols. PG&E notes that Section 8389(e)(7) refers to the implementation of an *approved* WMP. We submitted our 2021 WMP on February 5, 2021 and its approval by WSD and the Commission is still pending. However, PG&E has started implementing the initiatives and programs described in the 2021 WMP. Thus, this QAL addresses the implementation of the 2021 WMP for Q1 2021.

### **Q1 2021 Update**

#### **WMP Regulatory Background and Scope of QAL:**

As indicated above, PG&E submitted our 2021 WMP on February 5, 2021.<sup>1</sup> On March 17, 2021 and April 22, 2021, we provided errata for our 2021 WMP. In the 2021 WMP, PG&E described approximately 140 initiatives. We also highlighted 53 commitments for 2021 in Table PG&E-7.1-1 of our 2021 WMP.<sup>2</sup> The 53 commitments represent areas that “we are focused on delivering for 2021 (by the next annual update).”<sup>3</sup>

Our Q1 2021 QIU, which is being submitted concurrent with this QAL, provides progress updates for all of the initiatives described in our 2021 WMP. To minimize repetition between the QAL and the QIU, this submission will focus on providing additional details associated with the 53 commitments.

#### **2021 WMP Commitments Summary:**

A table of all 53 commitments including the current status is provided in Appendix 1. A summary of the status of these commitments, broken down by 2021 WMP Area is provided in Table 1 below. The Compliance Operational Protocols indicated that five potential status designations should be used for each initiative or commitment.<sup>4</sup> The Compliance Operational Protocols also indicated that electrical corporations should use the same format and colors as used by Southern California Edison Company in a July

---

<sup>1</sup> PG&E’s 2021 WMP is available at [www.pge.com/wildfiremitigationplan](http://www.pge.com/wildfiremitigationplan).

<sup>2</sup> 2021 WMP at pp. 280-287.

<sup>3</sup> 2021 WMP at p. 280.

<sup>4</sup> Compliance Operational Protocols at p. 9 (indicating status should be: completed, in progress, planned, delayed, or cancelled).

2019 Report (SCE Report).<sup>5</sup> Because the status designations in the Compliance Operational Protocols differed from the status designations in the SCE Report, we used the designations in the Compliance Operational Protocols for both the QAL and the QIU.<sup>6</sup> In this QAL, as well as in the QIU, we did try to match the colors from the SCE Report. In Table 2 below, we provide the color schema used in the QAL and the QIU for the five status designations included in the Compliance Operational Protocols.

**Table 1: Summary of 53 2021 WMP Commitments**

2021 WMP Area	Completed	In Progress	Planned	Delayed	Cancelled	Total
A. Risk Assessment and Mapping		6				6
B. Situational Awareness and Forecasting	2	14				16
C. Grid Design and System Hardening		13		2		15
D. Asset Management and Inspections		1		3		4
E. Vegetation Management and Inspections	1	1		1		3
G. Data Governance		2				2
I. Emergency Planning and Preparedness		2				2
J. Stakeholder Cooperation and Community Engagement		3				3
K. Protocols on Public Safety Power Shutoff		2				2
<b>Total</b>	<b>3</b>	<b>44</b>	<b>0</b>	<b>6</b>	<b>0</b>	<b>53</b>

**Table 2: Mapping of Status Designation and Color Schema**

SCE Report	Completed	On Track	Not Started	Off Track	N/A
QAL/QIU	Completed	In Progress	Planned	Delayed	Cancelled

**Details of 6 Delayed Commitments in PG&E's 2021 WMP:**

In this section of the QAL, we provide information regarding the six delayed commitments. In Table PG&E-7.1-1, we provided a Unique ID for each commitment. Below, we have included the Unique ID, the name of the activity, a brief description of the activity, and the

<sup>5</sup> Compliance Operational Protocols at p. 9.

<sup>6</sup> The Compliance Operational Protocols indicated the same five status designations for the QIU as are used in the QAL. See Compliance Operational Protocols at p. 6 (indicating status designations for QAL are completed, in progress, planned, delayed, and cancelled).

current status. In addition, it is important to note that in the discussion below, we refer to quarterly targets for certain commitments. These quarterly targets are generally not included in the 2021 WMP, but instead represent our internal targets in order that we can meet the annual target specified in the 2021 WMP for a commitment. However, we felt it was important to share with the Commission, WSD, and stakeholders our internal quarterly targets for these commitments to provide full transparency on where we expected to be by the end of Q1 2021 and where we are in terms of progress. We have also indicated below if we have a plan in place to get a specific commitment back on track.

**C.06 Distribution Sectionalizing (automated devices):** This commitment involves the installation of 250 distribution sectionalizing devices by December 31, 2021. Through Q1, 12 devices have been installed, which falls short of the Q1 target of 30. This commitment had a slow start in Q1 due to emergency events in January and February (Public Safety Power Shutoff (PSPS) and Wind Events). These emergency events delayed identifying and scoping all 2021 distribution sectionalizing projects, which was not completed until February. 67 units are forecasted to be installed in April to get this commitment on track.

**C.08 Distribution line legacy 4C Controllers:** This commitment involves the replacement of all remaining distribution line legacy 4C controllers that are in Tier 2 and Tier 3 High Fire Threat District (HFTD) areas by December 31, 2021. In the 2021 WMP, we estimated approximately 84 remaining distribution line legacy 4C controllers located in Tier 2 and Tier 3 HFTD areas. Of these 84 units, 4 were completed in 2020, which resulted in the 2021 target being reduced to 80. Through Q1, 2 devices have been replaced, which falls short of the Q1 target of 38. This commitment primarily had a slow start in Q1 due to emergency events in January and February (PSPS and Wind Events) and a reprioritization of the work plan in February. While this commitment experienced early delays, pre-construction activities on the remaining controllers targeted for 2021 have progressed with 50 controllers ready for construction, and 30 have already been scheduled for Q2 with the remaining 20 to be scheduled by early May. We believe that we are on track for meeting the full year target of replacing all 80 remaining distribution line legacy 4C controllers that are in Tier 2 and Tier 3 HFTD areas.

**D.01 Distribution HFTD Inspections:** This commitment involves enhanced inspections of overhead distribution assets at specified recurrence intervals by July 31, 2021. Through Q1, 21,351 poles have been inspected, which falls short of the Q1 target of 49,266. Pre-execution dependencies involving final workplan approvals, contractor selection, and onboarding with technology enhancements caused the program to fall behind, but resources are onboard and inspection volumes are expected to increase significantly in Q2 in alignment with meeting the July 31, 2021 completion commitment.

**D.02 Substation HFTD Inspections:** This commitment involves completing enhanced inspections on substation and power generation switchyard assets at specified recurrence intervals by July 31, 2021. Please note that the revised 2021 target of 141

Transmission & Distribution substations and Power Generation switchyards (i.e., Hydroelectric substations) reflects counting co-located Power Generation switchyards and Transmission & Distribution substations separately as two distinct units. This counting methodology has been implemented starting in 2021 as a result of process improvements arising out of the March 4, 2021 update letter regarding missed inspections in 2020.

Through Q1, 0 substations have been fully inspected, which falls short of the Q1 target of 13. Although the actual units appear to be significantly behind schedule, there has been progress made. Full substation enhanced inspections are counted as completed when all three planned inspection types (ground, aerial, and infrared) are completed. The table below reflects the number of partial inspections on the substations for each of the three inspection types as of Q1.

Inspection Type	# of Partial Inspections completed on Substations as of Q1 2021
Ground	0
Aerial	2
Infrared	14

This initiative fell behind at the end of Q1 due to delays with pre-execution dependencies involving final workplan approvals, contractor selection and onboarding, and technology enhancements. Resources are in place to support increased inspection volumes in Q2 to ensure completion of all 141 substations and power generation switch yards by the July 31, 2021 commitment due date.

**D.03 Transmission HFTD Inspections (structures):** This commitment involves enhanced inspections of transmission structures. Through Q1, 264 structures have been fully inspected, which falls short of the Q1 target of 4,858. Although the actual units appear to be significantly behind schedule, there has been progress made. Full Transmission WMP inspections units are counted when all three planned inspection types (ground, climbing, and aerial) are completed. The table below reflects the number of partial inspections on the transmission structures for each of the three inspection types as of Q1. The data in the table below is inclusive of the 264 fully inspected transmission structures.

Inspection Type	# of Partial Inspections on Transmission Structures as of Q1 2021
Ground	5,571
Aerial	795
Climbing	380

This initiative fell behind plan at the end of Q1 due to delays with pre-execution dependencies involving final workplan approvals, contractor selection and onboarding and with technology enhancements. Resources are in place to support increased

inspection volumes in Q2 to ensure completion by the July 31, 2021 commitment due date.

**E.01 EVM (line miles):** This commitment involves performing Enhanced Vegetation Management (EVM) on approximately 1,800 circuit miles of distribution facilities in Tier 2 and Tier 3 HFTD areas. Through Q1, 32 miles have been cleared, which falls short of the Q1 target of 126 miles. This commitment had a slow start in Q1 due to changes in the 2021 EVM Scope of Work. Changes to the 2021 EVM Scope of Work will be described in more detail in our response to Resolution M-4382 (*i.e.*, PG&E's Corrective Action Plan in response to Enhanced Oversight and Enforcement Step 1). PG&E's Vegetation Management Team is working to address this delay and move forward with EVM work. The 2021 EVM workplan continues to be refined to ensure the highest risk circuits are addressed and this has resulted in work execution resources being shifted and redeployed across regions to align with the revised workplan.

### **Recommendations of Board of Directors' Safety Committee Meetings During Q1 2021**

The PG&E Board of Directors' Safety and Nuclear Oversight (SNO) Committee is an important part of PG&E's Board-level oversight of safety, enterprise risk, and other matters. A SNO Committee also concurrently exists at the PG&E Corporation Board (together referred to as the "SNO Committees" or "Committees").

During the first quarter of 2021, the SNO Committees held a meeting on February 10 and a joint meeting with the Audit Committees on the same day, February 10.

During the February 10<sup>th</sup> meeting, the SNO Committees received a safety tailboard on the Near Hits program and enhancements and a detailed safety performance update, including discussion of Serious Injuries or Fatalities (SIF) actual events. The Committees also received an update on the 2025 Workforce Safety Improvement plan and nuclear performance. The Committees reviewed results from the 2020 PSPS events and stakeholder feedback, as well as the PSPS program goals for 2021. The Committees received an update on an enterprise-wide risk factor related to severe workforce disruption. Lastly, the Committees received an update on the fourth Quarter Wildfire Mitigation Plan and Probation Terms Report.

During the February 10<sup>th</sup> joint meeting, the SNO Committees and Audit Committees jointly reviewed the Internal Audit report for the fourth quarter of 2020. The SNO Committees primary focus is reports related to operational audits.

There is an ongoing dialogue between the Chair of the SNO Committees and management, with frequent engagements around the implementation of the workforce safety strategy, safety performance updates and corrective actions in the normal course of business. Additionally, the SNO Committees made the following specific safety-related recommendations to management during the first quarter of 2021:

- Complete a review of induction risk, current controls, gaps, and design an improvement plan. Consider requiring multi-point grounding when it's available.
- Establish practice of verifying closure of action items coming from SIF investigations a year after they were implemented.
- Discuss with other utilities the impact of COVID 19 on mutual aid agreements.

#### **Implementation of Recommendations/Guidance and Direction Described in Q4 2020 QAL (Advice Letter 6068-E)**

The following summarizes actions that management has taken to implement guidance and direction from the SNO Committees that was described in Advice Letter 6068-E for the fourth quarter of 2020.

- Recommendation #1: Continue to improve employee and contractor adherence to new contracting processes.

Management's response: Management has undertaken a project to improve the Procure-to-Pay process, including actions to improve adherence by employees and contractors. Management is also implementing enterprise standards and procedures to clarify performance expectations and roles and responsibilities for employees and contractors.

- Recommendation #2: Create a standard lexicon of terminology for the WMP to ensure materials presented externally are clear and consistent.

Management's response: Management has reviewed the WMP terminology and taken specific actions to make it more understandable and less reliant on acronyms. Implementation is ongoing.

- Recommendation #3: Consider outsourcing and/or minimizing bare-handing work through coordination with the California Independent System Operator to do work on de-energized lines.

Management's response: Any future decision to re-start bare-handing has to be approved by corporate safety, after consultation with an objective, external third-party.

- Recommendation #4: Provide the Committee with insight into safety practices with regard to helicopter operations particularly during PSPS events.

Management's response: Management discussed current practices with regard to all aspects of helicopter operations with the SNO Committees.

- Recommendation #5: Provide the Committee with additional information on the Safety Barometer employee survey and any resulting adjustments to the current 2025 Workforce Safety Strategy.

Management's response: Management completed this recommendation with a discussion on the Safety Barometer and implementation of improvements identified through the Safety Barometer.

- Recommendation #6: Present additional data on restoration times and customer impacts.

Management's response: Management provided additional data on restoration times and customer impact to the Boards.

- Recommendation #7: Define and present on key metrics for the 2021 WMP along with current challenges/opportunities. Review WMP progress at every meeting of SNO Committees.

Management's response: Management provided key metrics for the 2021 WMP to the SNO Committees. Progress of the WMP is reviewed at each Committee meeting.

- Recommendation #8: Submit the 2021 risk-informed project execution plans for System Hardening and Enhanced Vegetation Management and key wildfire risk reduction mitigations with monthly updates on progress.

Management's response: Management provides monthly reports to the Board as a result of this recommendation.

### Protests

**\*\*\*Due to the COVID-19 pandemic, PG&E is currently unable to receive protests or comments to this advice letter via U.S. mail or fax. Please submit protests or comments to this advice letter to [EDTariffUnit@cpuc.ca.gov](mailto:EDTariffUnit@cpuc.ca.gov) and [PGETariffs@pge.com](mailto:PGETariffs@pge.com)\*\*\***

Anyone wishing to protest this submittal may do so by letter sent via U.S. mail, facsimile or E-mail, no later than **May 24, 2021**, which is 21<sup>7</sup> days after the date of this submittal. Protests must be submitted to:

CPUC Energy Division  
ED Tariff Unit  
505 Van Ness Avenue, 4<sup>th</sup> Floor  
San Francisco, California 94102

Facsimile: (415) 703-2200  
E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest shall also be sent to PG&E either via E-mail or U.S. mail (and by facsimile, if possible) at the address shown below on the same date it is mailed or delivered to the Commission:

Sidney Dietz  
Director, Regulatory Relations  
c/o Megan Lawson  
Pacific Gas and Electric Company  
77 Beale Street, Mail Code B13U  
P.O. Box 770000  
San Francisco, California 94177

Facsimile: (415) 973-3582  
E-mail: PGETariffs@pge.com

Any person (including individuals, groups, or organizations) may protest or respond to an advice letter (General Order 96-B, Section 7.4). The protest shall contain the following information: specification of the advice letter protested; grounds for the protest; supporting factual information or legal argument; name, telephone number, postal address, and (where appropriate) e-mail address of the protestant; and statement that the protest was sent to the utility no later than the day on which the protest was submitted to the reviewing Industry Division (General Order 96-B, Section 3.11).

---

<sup>7</sup> The 20-day protest period concludes on a weekend; therefore, PG&E is moving this date to the following business day.

**Effective Date**

Pursuant to General Order (GO) 96-B, Rule 5.1, this advice letter is submitted with a Tier 1 designation. PG&E requests that this **Tier 1** advice submittal become effective upon date of submittal, which is **May 3, 2021**.

**Notice**

In accordance with General Order 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list **and the parties on the service list for R.18-10-007, R.18-12-005, and I.15-08-019**. Address changes to the General Order 96-B service list should be directed to PG&E at email address PGETariffs@pge.com. For changes to any other service list, please contact the Commission's Process Office at (415) 703-2021 or at Process\_Office@cpuc.ca.gov. Send all electronic approvals to PGETariffs@pge.com. Advice letter submittals can also be accessed electronically at: <http://www.pge.com/tariffs/>.

# ADVICE LETTER SUMMARY

## ENERGY UTILITY

MUST BE COMPLETED BY UTILITY (Attach additional pages as needed)

Company name/CPUC Utility No.: Pacific Gas and Electric Company (U 39 E)

Utility type:

- ELC       GAS       WATER  
 PLC       HEAT

Contact Person: Stuart Rubio

Phone #: (415) 973-4587

E-mail: PGETariffs@pge.com

E-mail Disposition Notice to: SHR8@pge.com

EXPLANATION OF UTILITY TYPE

ELC = Electric      GAS = Gas      WATER = Water  
 PLC = Pipeline      HEAT = Heat

(Date Submitted / Received Stamp by CPUC)

Advice Letter (AL) #: 6182-E

Tier Designation: 1

Subject of AL: Pacific Gas and Electric Company's Quarterly Advice Letter Pursuant to the Wildfire Safety Division's Compliance Operational Protocols and Assembly Bill 1054 Regarding the Implementation of Its Approved Wildfire Mitigation Plan and Its Safety Recommendations

Keywords (choose from CPUC listing): Compliance

AL Type:  Monthly  Quarterly  Annual  One-Time  Other:

If AL submitted in compliance with a Commission order, indicate relevant Decision/Resolution #:

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL: No

Summarize differences between the AL and the prior withdrawn or rejected AL: N/A

Confidential treatment requested?  Yes  No

If yes, specification of confidential information:

Confidential information will be made available to appropriate parties who execute a nondisclosure agreement. Name and contact information to request nondisclosure agreement/ access to confidential information:

Resolution required?  Yes  No

Requested effective date: 5/3/21

No. of tariff sheets: N/A

Estimated system annual revenue effect (%): N/A

Estimated system average rate effect (%): N/A

When rates are affected by AL, include attachment in AL showing average rate effects on customer classes (residential, small commercial, large C/I, agricultural, lighting).

Tariff schedules affected: N/A

Service affected and changes proposed<sup>1</sup>: N/A

Pending advice letters that revise the same tariff sheets: N/A

<sup>1</sup>Discuss in AL if more space is needed.

**Protests and all other correspondence regarding this AL are due no later than 20 days after the date of this submittal, unless otherwise authorized by the Commission, and shall be sent to:**

**PACIFIC GAS AND ELECTRIC COMPANY  
SAFETY CULTURE AND GOVERNANCE QUARTERLY REPORT  
NO. 10-2021  
IN COMPLIANCE WITH CPUC DECISION 18-11-050**

**I. Introduction: PG&E's Safety Focus**

In January 2021, Patti Poppe joined as Chief Executive Officer of PG&E Corporation, Pacific Gas and Electric Company's (PG&E) holding company. She brings a wealth of experience in the utility industry, including improving safety culture. Ms. Poppe has brought a fresh approach to the way we talk about safety – one that emphasizes the human impact of our decisions, actions and safety incidents. The way she talks about “coworkers” (and not “employees or contractors,” which has been our vernacular for years) underscores our shared obligation to look out for each other's safety. She emphasizes that everyone should know that they are “loved by their leader,” which means that there is a genuine care and concern for their safety and well-being – regardless of job or rank.

She is directing a Lean Operating strategy and a team is implementing a Lean system with One Purpose, One Mission, One Team and One Vision. The operating system aligns leadership to work cross-functionally on business goals, not individual goals. There are four basic plays in this Lean Operating system: Visual management, operational reviews, problem solving and standard work. Lean operating practices drive simplification of processes, break down silos and empower teams closest to the work to solve problems. Implementing lean operations is a journey that will help change our culture. Ms. Poppe is supported in this journey with our new Pacific Gas and Electric Company executive leadership team, including Adam Wright (EVP, Operations and COO), Marlene Santos (EVP and Chief Customer Officer) and, in May 2021, Jason Glickman (EVP, Engineering, Planning and Strategy).

Also, during the first quarter of 2021, California experienced improvement in the number of COVID-19 virus cases, and increased supplies of vaccines that has led to fewer restrictions for all Californians. While PG&E embraces the re-opening of the state, PG&E has also remained vigilant about safeguarding everyone's health and safety by extending work-from-home guidance and, consistent with state and county health guidance, maintaining the requirements of social distancing and mask wearing, both indoors and outside when others are present.

Another challenge PG&E is preparing for is the hot and dry weather conditions and the associated high-risk wildfire conditions. On February 5, 2021, PG&E submitted its 2021 Wildfire Mitigation Plan (WMP) in compliance with California Senate Bill (SB) 901, Assembly Bill (AB)1054 and direction from the California Public Utilities Commission's (CPUC) Wildfire Safety Division. The 2021 WMP updates PG&E's comprehensive Community Wildfire Safety Program (CWSP), incorporates lessons learned from the 2020 wildfire season, and outlines additional programs planned to continue reducing the risk of catastrophic wildfires. Another potential impact of the onset of hot and dry conditions is heat illness. In 2020, PG&E experienced a spike of 7 heat illness related DART cases. For these

reasons, PG&E began a heat illness prevention campaign in April well in advance of the summer months.

Tragically on March 9, a contract coworker was fatally injured when a third-party vehicle left the roadway and struck her while she was performing inspection work off the roadway. The incident investigation is complete and while PG&E cannot prevent a vehicle from leaving the roadway, we are implementing measures to increase visibility of our coworkers, and where possible installing temporary barriers and redesigning the workflow to reduce exposure. This incident accounts for our one serious injury and fatality (SIF) actual year-to-date. We have seen improvement in our non-fatal SIF actual events – with zero occurring in Q1 2021. Through Q1 2021, 63% of SIF incidents (potential and actual) have involved contractors. Additionally, there has been improvement in the 2021 12-month rolling DART rate, which has declined 10% from December 2020. In addition, 92% of our SIF corrective actions have been closed on time and 100% of our SIF investigations were completed in under 30 days.

Our customers and communities deserve the assurance that we deliver their electricity and natural gas safely and reliably. We are focused on demonstrating, through our actions, that we are working every day toward improved outcomes. We know that restoring trust can only come through sustained performance and accountability.

This report addresses our work and progress toward NorthStar Consulting's recommendations from January 1, 2021 through March 31, 2021, and is detailed in this report as follows:

- Executive Summary
- Conclusion
- Appendix: Sustainability Update, Board of Directors Reporting and Safety Program Updates

## **II. Executive Summary**

### **A. Safety Performance**

In addition to the contractor fatality on March 9, PG&E experienced seven potential serious injury and fatality (SIF potential) events so far this year.

On January 13, a contract tree climber fell from a redwood tree approximately 30' to 35' high and sustained injuries.

1. On January 24, a motor vehicle incident involved three PG&E vehicles, one each from Electric Operations, Gas Operations and Supply Chain. The event involved snowy/icy road conditions and a blind curve where the vehicles lost traction. The involved Gas Operations employee was nearly hit while outside his vehicle by the Supply Chain delivery vehicle. These employees were supporting the establishment of a micro laydown yard in the area due to a snow event. There were no injuries.
2. On January 25, an incident occurred involving a contract crew who were changing out primary and secondary crossarms. The supervisor arrived on site and saw two linemen working without proper protective equipment.

The supervisor stopped the work to address the safety violation. No injuries were sustained.

3. On January 29, a coworker was driving on a dirt and gravel roadway checking storm damage when the roadway failed and gave away. The vehicle rolled several times downhill and came to rest on the driver side 150' feet below. There were no significant injuries.
4. On March 2, a coworker was in a lift installing a 6" aluminum bus when the boom on the grade suddenly came down and hit his left shoulder pressing him against the lift basket and sustaining injuries.
5. On March 4, a contract tree trimmer was performing vegetation management when a 15-foot-long by 6-inch diameter tree branch that he was tied off to snapped. The contractor fell 20-feet to the ground and sustained injuries.
6. Finally, also on March 4, during a pole replacement, a contract coworker was relocating a gravel bag from ground to a track machine. The boom operator swung toward the track machine striking the field phase resulting in a circuit interruption. No injuries were sustained.

In light of the safety incidents involving our contract coworkers, PG&E is strengthening the **contractor safety** management program by implementing additional rigor into the management processes. These enhancements include eliminating subjective criteria in the prequalification process, establishing requirements for contractors to perform observations on their employees and to provide a summary of findings to PG&E, requiring on-site supervision for high-risk work, standardizing safety plans and the approval process, and increasing observations and inspections performed by PG&E safety specialists. PG&E is developing 16 vegetation management procedures to set standardized expectations for this work area. We have also established a Contractor Safety Council for Vegetation Management to help drive improvements in this high-risk area.

In addition, PG&E has established a daily incident report that is sent to all employees and a weekly incident review meeting. Measures are in place to improve **transportation safety** and address the increase in preventable motor vehicle incidents. An example of such a measure involves driver rodeos. A driver rodeo allows drivers to practice their driving skills including managing a vehicle during a skid and practicing braking distance skills. Additionally, PG&E is implementing a new National Safety Council (NSC) distracted driving course that all coworkers who drive a vehicle for business purposes will be required to complete.

## **B. Observations and Interventions**

The safety expertise of the field safety specialists is utilized to complete objective **safety observations**. This group logged a total of 3,281 observations from January 1, 2021 through March 31, 2021. By the end of Q1, 730 supervisors completed the safety leadership development training since the program's inception. This training equips field leadership with the skills and tools necessary to carry out effective safety connections, coaching and observations. The Field Safety organization met with front line

supervisors across the service territory to provide in-person field leadership coaching and discuss PG&E's discipline program and how it relates to safety.

With work-from-home status continuing for many employees through Q1 2021, nearly two thousand **office ergonomic** workstation evaluations and 4,039 follow-ups were completed. An ergonomic strategy for office reintegration post-COVID has been developed. The **industrial ergonomics** program is partnering with line of business personnel and a third-party company (Humantech), this program includes measuring task risk utilizing a video of a person performing a task, which is uploaded into their system to be analyzed and a risk score determined for body parts. In Q1, risk was reduced 45.5% on the task of transporting a tamper tool, which is a tool used when patching pavement. Additionally, eight new high-risk tasks were identified and analyzed in Q1. The **vehicle ergonomics** team performed 183 ergonomic assessments. All these ergonomic interventions help to reduce the risk of musculoskeletal injuries in the office, field or while driving.

### C. Safety Culture

Safety Survey action planning, including owner assignments for the identified opportunities, was completed; results were shared in Q4 2020. Implementation of the action plans has begun and are expected to be completed by Q3 2021. Action plan examples include: increasing safety presence in our New Employee Orientation and developing a communication protocol for observation reporting. Additionally, the lines of business action planning effort began by utilizing two workshops, which were facilitated by the National Safety Council (NSC) and attended by a core group from each line of business. The output from these workshops was a list of lower-performing components selected by each team that require improvement and an action plan for implementation for each line of business. These improvement initiatives are geared to strengthen the safety culture and coworker perceptions at PG&E.

Subsequent to the November pilot of **Safety Connections** involving senior leaders in the non-operations segments of PG&E, the remaining program target population received training and began executing field visits which include robust safety conversations with field crews. Our senior leaders carried out seventy-four Safety Connections during Q1.

### D. Safety Assurance

A corporate safety audit program standard and supporting tools were developed and piloted. An **Independent Safety Oversight Committee** (ISOC) assessment of the Shared Services organization was completed, and Electric Operations will be assessed in Q2.

## III. Conclusion

Consistent with PG&E's previous quarterly Reports, the Appendix has a progress update on the Workforce Safety Strategy, including first quarter 2021 safety performance. PG&E also certifies the ongoing execution of NorthStar's recommendations.

Attachment 1 to this Report includes approved Boards of Director (BOD) and Safety and Nuclear Oversight (SNO) Committee meeting minutes.

Attachment 2 to this report includes the completion narrative for NorthStar recommendation IX-1. This 2019 additional recommendation was completed in Q4 2020, and we are now sharing that updated completion narrative.

PG&E recognizes and remains committed to improving safety culture and safety performance. The focus is building an accountable, transparent organization that embraces raising issues and ideas, and acts upon resolving them. PG&E is moving quickly to sustain the progress we have made with the company's revamped safety strategy and validating areas for improvement in 2021.

## APPENDIX

### IV. Sustainability Update

#### A. Ongoing Execution and Sustainability

PG&E continues to execute on NorthStar's recommendations and has verified the sustainability of its Safety OII plans for the period of January 1, 2021, through March 31, 2021.

Compliance certifications for the first quarter of 2021 are shown in Table 1 below, and the status of the additional NorthStar recommendations is provided in Table 2.

**TABLE 1  
MATRIX OF SUSTAINABILITY PLANS**

<p>(a) MetricStream compliance certification status.</p> <p>Note: Additional recommendations from NorthStar’s Report – First Update (March 29, 2019) are certified in MetricStream under the plans in scope for the assessment (F-1, F-2, F-3, F-4, III-1, and IX-1). The table excludes “IX-4 Speak-up Effectiveness” and “VIII-8 OQ Feasibility Study”, which do not require ongoing actions.</p>					

**B. Additional NorthStar Recommendations**

At the request of SED, NorthStar performed a secondary assessment of six PG&E Safety OII plans, established in response to recommendations from NorthStar’s original report,<sup>1</sup> and included a set of additional recommendations in the NorthStar Report - First Update.<sup>2</sup> PG&E agreed with the additional recommendations and embraced the opportunity to further improve its safety culture and governance. The current status of PG&E’s implementation of these additional recommendations is provided in Table 2 below.

PG&E did not close any additional recommendation implementations during Q1 2021. One grouped recommendation under PG&E’s Safety OII plan F-2 Supervisors in the Field, which includes V-4, is still being implemented.

- F-2 recommendation item 14 - Move completed work review to the jobsite, allowing for immediate feedback before electronic records and paperwork are finalized.
- When F-2 recommendation item 14 is complete, updated closure narrative will be provided for the entire recommendation.

<sup>1</sup> NorthStar Report, issued on May 8, 2017.

<sup>2</sup> NorthStar Report – First Update, issued on March 29, 2019.

**TABLE 2  
MATRIX OF ADDITIONAL NORTHSTAR RECOMMENDATIONS AND  
PG&E'S IMPLEMENTATION STATUS**

Line No.	PG&E Implementation Plan	NorthStar Recommendation	Status
1	F-1_OII Implementation Plan	Institute version control over, and include dates for the implementation plans, completion narratives, sustainability plans and for the IA sign-off process.	Implemented Under Existing Plan
2	F-1_OII Implementation Plan	Increase the rigor and formality over target completion date changes, status changes and scope changes associated with the implementation of NorthStar's recommendations. Review the implementation status of all recommendations to ensure all elements of the recommendations have been addressed or PG&E's modifications have been documented and justified.	Implemented Under Existing Plan
3	F-1_OII Implementation Plan	Develop processes to ensure the sustainability of the implementation of NorthStar's recommendations.	Implemented Under Existing Plan
4	F-1_OII Implementation Plan	In addition to the status of the implementation of NorthStar's recommendations, continue to report to the Commission on any significant changes that might affect the sustainability of the recommendations.	Implemented Under Existing Plan
5	F-1_OII Implementation Plan	Report to the Commission on a quarterly basis the status of the One PG&E Operational Health & Safety (OH&S) Plan and associated metrics (in process).	Implemented Under Existing Plan
6	F-4 Comprehensive Safety Strategy _includes III-2_III-3_V-3	Increase CSO oversight and governance over public and other aspects of safety to mitigate potential silos and ensure risks are adequately addressed.	Implemented Under Existing Plan
7	F-4 Comprehensive Safety Strategy _includes III-2_III-3_V-3	Communicate results of Internal Audit (IA) safety-related audits and LOB management response to Safety, Health and Enterprise CAP (reporting to the CSO).	IA Review Complete
8	F-4 Comprehensive Safety Strategy _includes III-2_III-3_V-3	Include the Generation Safety Lead in routine meetings between Electric Operations and Gas Operations and Safety & Health regarding the implementation of OH&S plan.	Implemented Under Existing Plan

**TABLE 2  
MATRIX OF ADDITIONAL NORTHSTAR RECOMMENDATIONS AND  
PG&E'S IMPLEMENTATION STATUS  
(CONTINUED)**

Line No.	PG&E Implementation Plan	NorthStar Recommendation	Status
9	F-4 Comprehensive Safety Strategy _includes III-2_III-3_V-3	Conduct an annual (or biennial) blue sky strategic safety planning exercise to concentrate on the changing environment, potential risks and threats. The exercise should force a comprehensive analysis of all safety-related opportunities and threats and a formal, proactive action plan. The planning exercise should: <ul style="list-style-type: none"> <li>• Consider the environmental, financial, political, technological, infrastructure, public, workforce and other risks and safety advancements.</li> <li>• Include executives, management and potentially the BODs.</li> <li>• Be facilitated by an outside expert.</li> <li>• Cover ALL potential contributors to safety.</li> </ul>	Implemented Under Existing Plan
10	F-2_Supv in the Field_includes V-4	Increase the number of Supervisors in Electric Operations, Gas Operations and Power Generation field operations to comply with Corporate Procedure HR-2010-P01 thereby limiting the span of direct reports to a maximum of 1:20.	Implemented Under Existing Plan
11	F-2_Supv in the Field_includes V-4	Commit to a target level of dedicated time in supervisors calendars each week for time in the field; guidance will remain flexible for each LOB to take into consideration the different job functions and geographic work considerations.	Implemented Under Existing Plan
12	F-2_Supv in the Field_includes V-4	Transfer administrative tasks such as scheduling of work, training and paperwork review, from the Supervisor to the office-based staff.	Implemented Under Existing Plan
13	F-2_Supv in the Field_includes V-4	Formalize Gas, Electric, and Power Generation management expectations for supervisors spending time in the field and communicate techniques for how to reduce impediments in each LOB thereby increasing time in the field.	Implemented Under Existing Plan
14	F-2_Supv in the Field_includes V-4	Move completed work review to the jobsite, allowing for immediate feedback before electronic records and paperwork are finalized.	Plan in Progress
15	F-2_Supv in the Field_includes V-4	Reduce travel requirements for field personnel and supervisors who are frequently assigned to work or attend meetings outside their normal work locations.	Implemented Under Existing Plan
16	F-3_SLD_includes VIII-1	Continue to provide Crew Lead Safety Leadership training courses for employees that move into Crew Lead positions. Automatically include Crew Lead Safety Leadership training in the training profiles for new crew leads.	Implemented Under Existing Plan

**TABLE 2  
MATRIX OF ADDITIONAL NORTHSTAR RECOMMENDATIONS AND  
PG&E'S IMPLEMENTATION STATUS  
(CONTINUED)**

Line No.	PG&E Implementation Plan	NorthStar Recommendation	Status
17	F-3_SLD_includes VIII-1	On an annual basis, revise Safety Leadership Development (SLD) training to address any areas of concern identified in the review of SafetyNet observation data.	IA Review Complete
18	III-1_Board Qualifications	Report any changes in the Board of Director (BOD) skills matrix, and any changes to the composition of the BOD to the CPUC.	Implemented Under Existing Plan
19	III-1_Board Qualifications	Continue to update the BOD on safety and other significant industry issues.	Implemented Under Existing Plan
20	III-1_Board Qualifications	Encourage BOD members to inquire and challenge PG&E executives to ensure a robust governance process. Revise PG&E Corp.'s Governance Guidelines to include expectations for Directors. As an example, see the Sempra Energy Corporate Governance Guidelines. Among other items, the Sempra Energy Guidelines include the following: <ul style="list-style-type: none"> <li>• Maintain an attitude of constructive skepticism, ask relevant, incisive, probing questions and engage in direct and forthright discussions with the Board and management.</li> <li>• Develop and maintain a broad understanding of the corporation's business and risk profile, its strategic, financial and operating opportunities and plans, and its internal control systems and disclosure controls and procedures, including environmental, and health and safety systems and procedures</li> <li>• Balance prompt action with thorough deliberations, prioritize matter requiring attention, gather sufficient information, engage in open discussion, invite differing views, evaluate the benefits and risks of various courses of action and support the acceptance of prudent business risks to permit informed and timely decision making.</li> </ul>	IA Review Complete
21	IX-1_Safety Communication	Implement the recommendations identified in the outside vendor's communications audit.	IA Review Complete
22	IX-1_Safety Communication	Revise the communications plan as necessary to address any safety and health issues that are identified in recent and on-going Premier surveys and associated analyses	Implemented Under Existing Plan

**C. Changes to PG&E Execution of Plans**

As recommended by NorthStar, PG&E will continue to report to the Commission on any significant changes that might affect the sustainability of the recommendations.

- PG&E is sharing an update to Safety OII plan F-2, Supervisor in the Field. LOB specific approaches to address the spans and layers goal are:

- Gas Operations – Confirmed administrative tasks belong with the supervisors. To address spans and layers ratios by hiring additional full-time supervisors and superintendents, filled vacant supervisor roles and simplified or automated existing tasks. Continue to embrace Lean principles such as huddles for sharing/raising issues and utilizing Leader Standard Work to prioritize supervisor activities to allow more time in the field.
- Power Generation – Progress has been made in reducing the number of meetings supervisor are required to attend but administrative tasks have not been removed. After completing negotiations with the union, PG&E is in the process of hiring lead operators. This is a new position which is expected to significantly reduce the number of administrative tasks from both operations and maintenance supervisor task lists.
- Electric Operations – EO created the Operations Supervisor role in August 2019 for the purpose of removing administrative task burden from field supervisors. The LOB has also set aside Thursday as a “no book meeting” day to drive one meeting free day per week. The administrative duties moved to the Operations Supervisor role include:
  - Ensuring readiness of work and implementing batching strategies to maximize efficiency.
  - Manage, assign and ensure completion of emergent work – i.e. emergency.
- PG&E is sharing an update to Safety OII Plan IV-3, Safety Department Roles and Responsibilities. The EH&S organization structure was set in Q3 2020 and has remained stable. As we work to execute the regionalization initiative, further role refinements will occur. However, PG&E does not foresee any negative impacts to the ongoing execution of our 2025 Workforce Safety Strategy.
- PG&E is sharing an update to Safety OII Plan VI-2 & VI-3 – Safety IPP, Risk and Business Case Planning. PG&E has aligned its project management process with the Project Management Institute’s guidelines. We no longer utilize the L0 to L5 terminology shared previously. Depending upon project scope, new initiatives will be approved by appropriate leadership. For example, enterprise wide initiatives with material operational impact and cost will be approved at the executive level. Initiative updates are provided at the Safety Technical Council meetings to provide an opportunity for feedback. Planned initiatives are aligned with the 2025 Workforce Safety Strategy.
- PG&E is sharing an update to Safety OII Plan VI-4, PPM for Power Generation expanded to EO and GO. PG&E has experienced significant executive level organization changes during Q1 2021. These changes include a new CEO, new EVP of Operations, new Gas and Electric Operations VPs, and several other additions. As of now, there has been no impact to the execution of this plan.
- PG&E is sharing an update to Safety OII Plan VI-5, Session D link to Session 1 and 2. The Operating Rhythm is being developed to replace

Session D, Session 1 and Session 2. Enterprise Risk Management has engaged with Business Finance to integrate risk into the new process and is the lead to develop a replacement for RIBA for purposes of prioritizing projects and programs. Risk and Compliance Committees remain the primary LOB risk management forums.

- PG&E is sharing an update to Safety OII Plan VIII-3 – SLD 360. PG&E compiled and completed a review of our 2020 full year Safety Culture Observation data in SafetyNet to inform the annual update to our 2021 Safety Leadership Development workshops. PG&E reviewed 91 Safety Leadership Development observations, and the data did not indicate that any specific changes to the Safety Leadership Development workshops were needed. We are looking to develop revisions to this training in 2021 to align with our 2025 Workforce Safety Strategy.
- PG&E is sharing an update to Safety OII Plan VIII-4 – Mandatory Refresher Training. For fundamental safety training, the Safety at Heights training requirements have been renamed to Fall Protection to align with the California Code of Regulations and PG&E’s internal safety standard, SAFE-1012S – Fall Protection.
- PG&E is sharing an update to Safety OII Plan IX-1 – Safety Communications. We are continuing to iterate on our communications plans to reflect the new 2025 Workforce Safety Strategy. We are also deepening our engagement with Keadjian, the audit vendor, to further enhance our communications.
- PG&E is sharing an update to Safety OII Plan X-4 – Review of Serious Incident Investigations. During Q1 2021, PG&E’s Internal Audit team began an audit of the serious injury or fatality intake process to assess how lines of business determine what is a SIF actual, SIF potential or non-SIF. This is a complement to an ongoing CPUC mandated audit performed by the firm Conger & Elsea of the Enterprise Corrective Action Program, which entails a cause evaluation review, a subset of which are SIF investigations.
- PG&E is sharing an update to Safety OII Plan X-7 – Safety Communication Protocol. We have made improvements to our SIF communications, including:
  - Every SIF final communication is now distributed to all high and medium-risk contractors.
  - Safety communications are now branded, including “SIF Alerts.”
  - We are exploring the opportunity to utilize text messaging for SIF communications.

## **V. Board of Directors Reporting**

In D.19-06-008, the Commission directed PG&E to provide the following information in the quarterly reports submitted to SED pursuant to D.18-11-050:

- 1) Non-confidential versions of the minutes of all BOD and safety committee meetings.

- 2) All training, education or other support on safety that PG&E and PG&E Corporation are providing to Board members so that they can adequately perform their duties on safety issues.<sup>3</sup>

**A. BOD and SNO Committee Meeting Minutes**

In the first quarter of 2021, the Board had formal meetings on January 29 and February 10. The SNO Committees held meetings on February 10 and a joint meeting with the Audit Committee on the same day, February 10.

Attachment 1 to this Report includes non-confidential versions of approved minutes for the following BOD and SNO Committee meetings that were held on or after June 13, 2019,<sup>4</sup> and for which approved minutes have not been provided in connection with a prior quarterly report.

- Meetings of the BODs of PG&E and PG&E Corporation that were held concurrently on the following dates:

December 10, 2020
-------------------

- Meetings of the SNO Committees of the BODs of PG&E and PG&E Corporation that were held concurrently on the following dates:

November 25, 2020 - concurrent with the Compensation Committee
December 9, 2020 - concurrent with the Audit Committees
December 10, 2020

Meeting minutes for the BODs and the SNO Committees must be formally reviewed and approved by the relevant governance body prior to finalization. The timing for this process varies, and in many cases the minutes will be finalized in a different quarter than the quarter in which the meeting was held.

**B. BOD Safety-Related Training**

PG&E is submitting information regarding “all training, education or other support on safety that PG&E and PG&E Corp.” provided “to board members to ensure that they can adequately perform their duties on safety issues.”

- During the first quarter of 2021, several board members conducted a field visit to Diablo Canyon Power Plant. Given the ongoing pandemic, the prior practice of consistent site visits for directors continues to be impacted.
- In February 2021, the Boards received an update on safety performance and the 2025 Workforce Safety Improvement plan, as well as an overview of events with impact on operations.
- In February 2021, the SNO Committees received a safety tailboard on the Near Hits program and a detailed safety performance update, including discussion of SIF actual events. The Committees also received an update

---

<sup>3</sup> D.19-06-008, *mimeo*, p. 4

<sup>4</sup> Effective date of D.19-06-008.

on the 2025 Workforce Safety Improvement plan and nuclear performance. The Committees reviewed results from the 2020 PSPS events and stakeholder feedback, as well as the PSPS program goals for 2021. The Committees received an update on an enterprise cross-cutting risk factor related to severe workforce disruption. Lastly, the Committees received an update on the 2020 fourth quarter Wildfire Mitigation Plan and Probation Terms Report.

- In February 2021, the SNO Committees and the Audit Committees jointly reviewed the Internal Audit report for the fourth quarter of 2020. The SNO Committees primary focus is reports related to operational audits.

## **VI. Safety Strategy and Performance Update**

### **A. Safety Strategy Update**

Our new Chief Safety Officer has now been in his role for a year. During his first year, he developed our 2025 Workforce Safety Strategy. The safety updates included in this report align with the major components of the 2025 Workforce Safety Strategy. The strategy has been reviewed by senior leadership and the Board of Directors and has driven our execution since mid-2020. PG&E continues to execute to all major elements included in the previous One PG&E Health and Safety Plan and believe this new strategy and its broader scope will help drive improvements in safety performance.

**TABLE 3  
CRITICAL RISK UPDATE**

Strategy Component	Workstream	Q1 2021 Progress
Critical Risk	<ul style="list-style-type: none"> <li>Hazard identification and risk assessment workshops</li> </ul>	<ul style="list-style-type: none"> <li>Conducted workshops with critical health and safety staff to identify potential enterprise level risks. During Q2, risks will undergo a formal risk assessment that is consistent with the Enterprise Operational Risk Management practices.</li> <li>Vegetation Management conducted an assessment of key hazards with the assistance of a third party. Actions were developed and are in the process of being implemented.</li> <li>Strategies were developed for the assessment of PG&amp;E owned and maintained roads to identify and prioritize risks to drivers using these roadways.</li> </ul>

## B. Safety Metrics

PG&E established Days Away, Restricted or Transferred (DART)<sup>5</sup> targets for 2021 based on the goal of reaching 1<sup>st</sup> quartile by 2025. The 2021 goal would place PG&E in 3<sup>rd</sup> quartile.

Table 13 below summarizes key metrics performance and established targets for 2018 - 2021. Figure 1 below provides current performance with respect to employee safety metrics as of March 31, 2021.

**Additional Analysis:** DART cases have continued their downward trajectory since March of 2020 primarily driven by a drop in restricted duty cases. Improvements have been made in both field and office worker groups. The 12-month rolling average has dropped into third quartile and the performance is currently on track to meet the end of year target.

**TABLE 13  
2018-2021 PERFORMANCE AND ESTABLISHED TARGETS**

Metric	2018		2019		2020*		2021*		
	Actual	Target	Actual	Target	Actual	Target	YTD Actual	YTD Target	EOY Target

### **C. Conclusion**

PG&E is committed to improving its safety culture and performance and regaining the public's trust. The areas of opportunity identified by NorthStar in its Final Report and in its First Update are at the core of a strong and proactive safety culture. PG&E looks forward to continuing this important work and providing the Commission with quarterly updates on its progress.

**PACIFIC GAS AND ELECTRIC COMPANY**  
**ATTACHMENT 1**  
**BOD AND SNO COMMITTEE MEETING**  
**MINUTES**

PRIVILEGED AND CONFIDENTIAL<sup>1</sup>  
BOARD MEETING – December 10, 2020  
PG&E CORPORATION

A video conference meeting of the Board of Directors of PG&E Corporation (Corporation) was held on Thursday, December 10, 2020, at 12:45 p.m. The meeting was held concurrently with a meeting of the Pacific Gas and Electric Company (Utility and, together with the Corporation, the Companies) Board of Directors.

Directors Cheryl F. Campbell, Kerry W. Cooper, Jessica L. Denecour, Mark E. Ferguson III, Robert C. Flexon, W. Craig Fugate, Arno L. Harris, Michael R. Niggli, Dean L. Seavers, William L. Smith, Oluwadara J. Treseder, Benjamin F. Wilson, and John M. Woolard attended by video conference, as permitted by the Corporation's Bylaws. Director Rajat Bahri was absent.

Also participating by video conference at the beginning of the meeting were Patricia K. Poppe, Brian M. Wong, and Jenny Kan.

Quorum present, Mr. Flexon, Chair of the Board of the Corporation, presided as chair of the concurrent meeting. Mr. Wong served as secretary of the meeting.

Mr. Wong and Ms. Kan were excused, and the meeting was convened in executive session. He was informed that the following discussions took place:

- Mr. Smith led a discussion on the 2021 Company Goals around safety, wildfire mitigation, people, customer, commitments, relentless execution, risk-informed work & resource plan, and financial stability.

The Board concluded its executive session, and Mr. Wong and Ms. Kan were recalled. The Board convened in regular session and Michael A. Lewis, Francisco Benavides, Sumeet Singh, Christopher A. Foster, and J. Ellen Conti entered the meeting, along with Todd W. Filsinger of Filsinger Energy Partners, Charles J. Kalil II and Christopher W. Keegan of Kirkland and Ellis LLP, and Darrell Smith of NorthStar Consulting Group present.

Mr. Wong opened the meeting with a moment of silence for Utility employees who had passed away since the previous Board meeting.

Referring to materials that had been provided to the directors in advance of the meeting and that are included in the records of this Board, Mr. Benavides presented a tailboard on Process Safety Management and how it is applied to the Utility's natural gas system in order to prevent low frequency, high consequence incidents. He reported updated metrics on safety performance, including SIF (Serious Injuries and Fatalities) and DART (Days Away, Restricted, Transfer Duty), as well as the safety responses to the enterprise employee survey. The directors

---

<sup>1</sup> Certain portions of these minutes are attorney-client privileged and confidential, and are identified as such.

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

asked questions, including the breakdown of safety incidents by field and office workers, and regarding alignment with best practices in the industry.

During the foregoing discussion, William V. Manheim, John R. Simon, Fong Wan, James M. Welsch, and Angela Anderson and Douglas A. Bennett of NorthStar Consulting Group entered the meeting.

Mr. Lewis presented a report on the Utility’s operations, which are included in the records of this Board. He reported on the status and lessons learned on the compliance matters previously raised in the Federal Monitor’s report, shared a progress update on the 2020 Wildfire Mitigation Plan, and gave an overview of the 2020 Public Safety Power Shutoff events. The directors asked questions, and a discussion ensued.

At this point, Ms. Anderson, Mr. Bennett, Mr. Filsinger, Mr. Kalil, Mr. Keegan, and Mr. D. Smith were excused.

[THE FOLLOWING PARAGRAPH CONTAINS ATTORNEY-CLIENT PRIVILEGED AND CONFIDENTIAL INFORMATION.]

[REDACTED]

[END OF PRIVILEGED AND CONFIDENTIAL INFORMATION.]

Following the discussion, Messrs. Manheim, Wan, and Welsch left the meeting and Ms. Anderson, Mr. Bennett, Mr. Filsinger, Mr. Kalil, Mr. Keegan, and Mr. D. Smith were re-admitted.

Referring to Board materials, Mr. Singh presented on wildfire risk model improvements and how the risk models inform the 2021 wildfire risk reduction workplans. The directors asked questions and discussed, among other matters, risk modeling, the data sources for the wildfire risk models, the use of remote sensing data, risk profile curve and associated costs, and knowledge sharing with external agencies.

Mr. Foster reviewed the Financial and Business Highlights report for October 2020 in the Board materials. He discussed the financial performance and liquidity at the Corporation and Utility, and the upcoming Fire Victim Trust offering. The directors asked questions and a discussion ensued.

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

During the foregoing discussion, Jessica Hogle and Robert S. Kenney joined the meeting.

Ms. Hogle and Mr. Kenney led a discussion on federal and state legislative and regulatory matters, which are reflected in the Board materials. Among other things, they discussed the legislative outlook in California and at the federal level, appointment of Liane Randolph as the Chair of the California Air Resources Board, and rollout of COVID-19 vaccinations. A discussion ensued, during which the Board asked questions, including the potential for investment tax credits for hydrogen and carbon capture.

At this point, (i) Ms. Hogle and Mr. Kenney left the meeting, (ii) Ms. Anderson, Mr. Bennett, Mr. Filsinger, Mr. Kalil, Mr. Keegan, and Mr. D. Smith were excused, and (iii) Stephen Cairns, Ajay Waghay, Alejandro Vallejo, and Kevin Orsini of Cravath Swaine & Moore LLP joined the meeting.

At this point, (i) Messrs. Cairns, Waghay, Vallejo, and Orsini left the meeting, (ii) Cliff Gleicher joined the meeting, and (iii) Ms. Anderson, Mr. Bennett, Mr. Kalil, Mr. Keegan, and Mr. D. Smith re-entered the meeting.

Referring to Board materials, Mr. Gleicher led a Director Code of Conduct training, including best practices for setting the “tone at the top.” In that context, he presented the story of The Boeing Company and the 737 Max, in addition to discussing the Federal sentencing

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

guidelines and the U.S. Department of Justice’s criteria for evaluating corporate compliance programs.

The Directors asked questions and discussed, among other items, virtual actions to take during the COVID-19 pandemic to create and foster a culture of ethics and compliance and ways to engage with company leaders and employees. During the foregoing discussion, Mr. Bennett left the meeting.

After the discussion, Mr. Gleicher left the meeting.

Mr. Wong next presented the minutes of the prior meetings for the Boards’ approval.

On motion made and seconded, the Board approved the minutes of the Board meeting held on October 28, 2020.

Mr. Ferguson, Chair of the Corporation’s Compensation Committee, led a discussion on the actions taken and key topics discussed at the committee’s most recent meeting. He reported that, among other matters, the Committee reviewed and agreed to recommend that (i) the Corporation Board approve amendments to the CEO travel policy, and (ii) the Boards approve the election of Alejandro Vallejo as Vice President, Compliance & Ethics and Deputy General Counsel of the Utility, and Brian M. Wong as General Counsel of the Utility. Additionally, the Committee recommended that the Corporation Board approve the amendment to the terms of William Smith’s Interim CEO Performance Share Award Agreement to (a) provide that performance shares are forfeited upon termination of “service” (which includes service on the PG&E Corporation Board), rather than “employment” (unless otherwise specified in the Agreement) and (b) clarify that the number of shares settled will be pro-rated to reflect the number of months Mr. Smith worked during 2020. Mr. Ferguson also noted that the Committee proposed changes to the recommended action regarding the rescission of CEO ground transportation benefit and would be submitted as an action by written consent. The directors discussed the proposed actions.

On motion made and seconded, the independent members of the Board approved (i) the amendments to the CEO travel policy (see Resolution 1 in Attachment A) and (ii) the amendment to the Interim CEO LTIP award agreement as presented.

On motion made and seconded, the Boards adopted a resolution electing Alejandro Vallejo as Vice President, Compliance & Ethics and Deputy General Counsel of the Utility, and Brian M. Wong as General Counsel of the Utility, as presented (see Resolution 2 in Attachment A).

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

Mr. Keegan left the meeting at this point.

Mr. Seavers, Chair of the Corporation's Finance Committee, led a discussion on the Finance Committee's recommendations that the Boards (i) approve expenditures and execution of the related agreements for the Butte County Rebuild – Phase 2 capital project, (ii) approve proposed amendments to the Capital Projects Review Criteria, and (iii) concur with operating expense and capital expenditure budgets in the 2021 Financial Performance Plan. Mr. Seavers reviewed the background and reasons for the proposed actions. The directors asked questions, and a discussion ensued.

On motion made and seconded, the Board (i) approved expenditures for the Utility capital project, (ii) approved to increase current thresholds for Committee review and approval of PG&E Corporation and Utility capital projects and divestitures, and (iii) concurred with operating expense and capital expenditure budgets on the 2021 Financial Performance Plan (see Resolution 3 in Appendix A).

Mr. Flexon, Chair of the Corporation's Nominating and Governance Committee presented a report and led a discussion on the actions taken and key topics discussed at the committee's most recent meeting, as described in materials that had been provided to the directors in advance of the meeting and that are included in the records of this Board. He reported that, among other matters, the Committee reviewed and agreed to recommend that the Boards (i) approve the skills matrix, (ii) reassess the Board leadership structure, (iii) set the time and date of Annual Meeting of Shareholders and set the record date for shares entitled to vote at Annual Meeting, (iv) approve amendments to Corporate Governance Guidelines, and (v) determine Bill Smith's independence. He invited questions and discussion on these recommendations.

After discussion, on motion made and seconded, the Boards approved (i) the Director skills matrix, (ii) Board leadership structure, (iii) time and date of the Annual Meeting of Shareholders, and record date for shares entitled to vote at the Annual Meeting, (see Resolution 4 in Appendix A), (iv) amendments to Corporate Governance Guidelines, and (v) independence of Bill Smith (see Resolution 5).

Ms. Campbell, Chair of the Corporation's Safety and Nuclear Oversight (SNO) Committee, presented the committees' third quarter 2020 report to the Boards on the Utility's progress against its 2020 Wildfire Mitigation Plan. This included a discussion of materials that had been provided to the directors in advance of the meeting and that are included in the records of this Board. The directors asked questions, and a discussion ensued.

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

Ms. Denecour, Chair of the Corporation's Technology and Cybersecurity Committee, reported on and led a discussion on the actions taken and key topics discussed at the committee's most recent meeting.

Mr. Wilson, Chair of the Corporation's Audit Committee, reported on the actions taken and key topics discussed at the most recent Audit Committee meeting.

Mr. Woolard, Chair of the Corporation's Compliance and Public Policy (CPP) Committee, reported on and led a discussion on the actions taken and key topics discussed at the most recent CPP Committee meeting.

At this point, Mr. Lewis, Mr. Simon, Mr. Benavides, Mr. Singh, Mr. Foster, Mr. Wong, Ms. Kan, Mr. Kalil, Mr. Keegan, Ms. Anderson left the meeting, and the Board continued in executive session with Ms. Poppe and Mr. Smith present.

Ms. Poppe and Mr. Smith were excused and the independent directors met in executive session to discuss various matters.

There being no further business presented for action, on motion made and seconded, the meeting was adjourned at 6:00 p.m.

BRIAN M. WONG  
Secretary

**ATTACHMENT A**

**Resolution 1**

WHEREAS, the Board of Directors of this corporation previously delegated to the corporation's Chairman of the Board and Chief Executive Officer ("CEO") the authority to determine the extent to which that officer's use of private airplanes is appropriate for that officer's business, consistent with the intent to ensure the safety and security of the corporation's critical personnel;

WHEREAS, pursuant to such delegation of authority, the CEO may consider factors other than safety and security in exercising such officer's discretion to use private aircraft for business travel, such as the CEO's schedule, commercial airline schedules, or inconvenient commercial airport locations, and other circumstances in which the CEO deems such use to be in the best interest of this corporation;

WHEREAS, this Board of Directors has authorized the Chair of the PG&E Corporation Compensation Committee to oversee, administer, and make final interpretations of this policy, as appropriate; and

WHEREAS, the Board of Directors previously restated this policy to (1) eliminate the CEO's ability to use private aircraft for personal travel, and (2) reflect the Compensation Committee's general policy against providing tax gross-up payments to executive officers; and

WHEREAS, the Board of Director wishes to clarify that, in discrete circumstances as approved from time-to-time by the Board, the CEO may use company-provided private aircraft for personal reasons.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors hereby (1) delegates authority to the CEO (and to the Chair of the Board, if such position is held by an officer other than the CEO) to use private aircraft for such officer's business travel, and (2)

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

authorizes the CEO (and the Chair of the Board, if appropriate) to exercise such officer's discretion in determining the circumstances in which such use of private aircraft is appropriate and (3) delegates to the non-executive Chair of the Board (or, if the Chair of the Board is not independent, to the independent lead director) authority to approve whether and when such officer's spouse or may travel as a guest on such flights; and

BE IT FURTHER RESOLVED that the CEO (or the Chair of the Board, if appropriate) may use private aircraft for personal use, and such officer's spouse or other family members may travel with such officer as a guest, but only to the extent specifically approved from time to time by the independent members of the Board of Directors,

BE IT FURTHER RESOLVED that the CEO (or the Chair of the Board, if appropriate) shall be reimbursed at company expense for the cost of such travel; and

BE IT FURTHER RESOLVED that any tax impact due to the imputed value of the CEO's (or the Chair of the Board's, if appropriate) or such officer's spouse's or other family members' travel is not reimbursable; and

BE IT FURTHER RESOLVED that the Board of Directors hereby delegates to the Chair of the PG&E Corporation Compensation Committee the authority to oversee, administer, and make final interpretations of this policy, as appropriate; and

BE IT FURTHER RESOLVED that, at least annually, management shall provide the PG&E Corporation Compensation Committee with reports on the use of private aircraft by the CEO (and the Chair of the Board, if appropriate), including any expenditures or reimbursements paid by this corporation under this policy; and

BE IT FURTHER RESOLVED that the resolution on this subject adopted by the Board of Directors on September 21, 2011 is hereby superseded.

**Resolution 2**

BE IT RESOLVED that the Committee recommends that the Board of Directors of Pacific Gas and Electric Company elect Alejandro Vallejo as Vice President, Compliance & Ethics and Deputy General Counsel.

BE IT FURTHER RESOLVED that the Committee recommends that the Board of Directors of Pacific Gas and Electric Company elect Brian Wong as General Counsel, in addition to his officer position of Vice President and Corporate Secretary.

**Resolution 3**

BE IT RESOLVED that this Board of Directors shall approve the annual capital and operating budgets of this corporation, which shall incorporate the annual capital and operating budgets of the corporation's subsidiaries.

BE IT FURTHER RESOLVED that it is the policy of this Board that capital projects and annual capital budgets shall be approved by this Board prior to commitment or expenditure of funds by this corporation or its subsidiaries. Specifically, it is this Board's policy that, effective January 1, 2021:

1. This Board shall approve capital projects involving estimated capital costs or expenses of \$250 million or more made in connection with the business of Pacific Gas and Electric Company, and shall approve all other capital projects of this corporation or of any subsidiary other than Pacific Gas and Electric Company or its subsidiaries involving estimated capital costs or expenses of \$100 million or more.
2. The Finance Committee of this Board shall review and make recommendations to this Board with respect to all capital projects and annual capital budgets that require approval by this Board.

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

3. The Chief Executive Officer of this corporation, or such officer's designee, shall approve capital projects involving estimated capital costs or expenses of less than \$250 million made in connection with the business of Pacific Gas and Electric Company, and shall approve all other capital projects of this corporation or of any subsidiary other than Pacific Gas and Electric Company or its subsidiaries involving estimated capital costs or expenses of less than \$100 million. Any authority delegated by the Chief Executive Officer of this corporation pursuant to this resolution may be delegated and sub-delegated further with the concurrence of the Chief Executive Officer of this corporation.
  
4. All approvals of capital projects and annual capital budgets shall be obtained prior to commitment or expenditure of funds by this corporation or its subsidiaries, with the exception of (a) increases in capital costs or expenses associated with an individual capital project that do not exceed \$50 million or 10 percent of the total estimated project costs originally approved by the Board for that project, whichever is less, (b) increases in capital expenditures that do not exceed \$50 million or 10 percent of the annual capital budget approved by the Board for the corporation or the relevant subsidiary (as the case may be), whichever is less, (c) emergency restorative work immediately following sudden damage to facilities resulting from equipment failures, storms, floods, or other catastrophic events requiring urgent work to repair or replace facilities and restore service or ensure safety, and (d) emergency preventive work undertaken to avert or mitigate significant imminent safety hazards to employees or to the public, or to avert significant imminent damage to facilities, or to avert significant imminent service interruptions to customers.

BE IT FURTHER RESOLVED that it is the policy of this Board that the divestiture in any manner of any asset, investment, real or personal property, or business interest of this corporation or its subsidiaries shall be approved in advance by this Board if such assets, investments, real or personal property, or business interests have a value above specified amounts. Specifically, it is this Board's policy that, effective January 1, 2021:

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

This Board shall approve the divestiture, in any manner, of any asset, investment, real or personal property, or business interest of Pacific Gas and Electric Company or its subsidiaries, if the book value or the anticipated market value of the asset, investment, real or personal property, or business interest is \$250 million or more. This Board shall approve the divestiture, in any manner, of any asset, investment, real or personal property, or business interest of this corporation or of any subsidiary other than Pacific Gas and Electric Company or its subsidiaries, if the book value or anticipated market value of the asset, investment, real or personal property, or business interest is \$100 million or more.

The Finance Committee of this Board shall review and make recommendations to this Board with respect to the divestiture, in any manner, of any asset, investment, real or personal property, or business interest of this corporation or its subsidiaries if such divestiture requires approval by this Board.

The Chief Executive Officer of this corporation, or such officer's designee, shall approve the divestiture, in any manner, of any asset, investment, real or personal property, or business interest of Pacific Gas and Electric Company or its subsidiaries, if the book value or the anticipated market value of the asset, investment, real or personal property, or business interest is less than \$250 million. The Chief Executive Officer of this corporation, or such officer's designee, shall approve the divestiture, in any manner, of any asset, investment, real or personal property, or business interest of this corporation or of any subsidiary other than Pacific Gas and Electric Company or its subsidiaries, if the book value or anticipated market value of the asset, investment, real or personal property, or business interest is less than \$100 million. Any authority delegated by the Chief Executive Officer of this corporation pursuant to this resolution may be delegated and sub-delegated further with the concurrence of the Chief Executive Officer.

BE IT FURTHER RESOLVED that the resolution on this subject adopted by the Board of Directors on September 20, 2006, is hereby superseded.

**Resolution 4**

BE IT RESOLVED that the 2021 annual meeting of shareholders of PG&E Corporation shall be held at ten o'clock a.m. on Thursday, May 20, 2021, at the Pacific Gas and Electric Company Auditorium, 245 Market Street, San Francisco, California, with an opportunity for shareholders to attend by videoconference or other electronic communication; provided that the 2021 annual meeting of shareholders may, to the extent permitted by law, be held entirely by videoconference or other electronic communication in response to public safety or similar concerns; and

BE IT FURTHER RESOLVED that March 22, 2021 is hereby fixed as the record date for the determination of shareholders entitled to receive notice of and to vote at said annual meeting and at any adjournment thereof.

**Resolution 5**

WHEREAS, Mr. Smith has served as Interim Chief Executive Officer (CEO) of the Corporation since July 1, 2020, and is expected to terminate such service on January 3, 2021, and thus will have served as interim CEO for approximately six months; and

WHEREAS, service as Interim CEO of the Corporation for less than twelve months does not compromise Mr. Smith's ability to otherwise be deemed independent pursuant to the rules of the New York Stock Exchange (NYSE) or the Corporation's Corporate Governance Guidelines; and

WHEREAS, Mr. Smith has submitted a completed 2020 Director and Officer Questionnaire (the "Questionnaire"), and such Questionnaire did not disclose any relationships that Mr. Smith believed might compromise his independence;

WHEREAS, based on the Questionnaires and additional information from Mr.

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

Smith, management researched the volume of business conducted since January 1, 2017 between the Corporation (and its subsidiaries) and (1) any entities that are wholly owned by Mr. Smith or his immediate family members, (2) any entities that, since January 1, 2017, have employed Mr. Smith in any capacity, and (3) entities for which, since January 1, 2017, a member of Mr. Smith's immediate family has served as a Section 16 officer (or in a similar position or owner); and management found no relevant business, board interlocks or auditor affiliations that could compromise independence; and Mr. Smith did not report receiving compensation from sources other than his primary employer(s); and Mr. Smith did not report that he or his immediate family members received consulting, advisory, or compensatory fees from the Corporation or its subsidiaries or affiliates, and did not report any affiliations with the Corporation;

WHEREAS, based on the Questionnaire and additional information from Mr. Smith, and to assess Mr. Smith's independence for purposes of serving on the Audit Committee and the Compensation Committee, management specifically reviewed information relating to (1) sources of compensation paid to Mr. Smith, (2) the existence of direct or indirect payments of consulting, advisory, or other compensatory fees since 2017 from the Corporation and its subsidiaries and affiliates to Mr. Smith and his immediate family members, and (3) whether any Mr. Smith is affiliated with the Corporation or its subsidiaries or their affiliates; and Mr. Smith did not report receiving compensation from sources other than his prior employer(s); and Mr. Smith did not report that he or his immediate family members received consulting, advisory, or compensatory fees from the Corporation or its subsidiaries or affiliates, and Mr. Smith did not report any affiliations with the Corporation;

WHEREAS, consistent with implementation of the POR, all members of the Board of Directors (other than the Chief Executive Officer of the Corporation) must be independent as defined by the New York Stock Exchange ("NYSE")

WHEREAS, the Board has considered Sections 303A.01, 303A.02, 303A.04, 303A.05, 303A.06, and 303A.07 of the NYSE Listed Company Manual, which require that (1) a majority of the Board be "independent" as defined in Section 303A.02 of the NYSE Listed Company Manual, and all members of the Compensation Committee, the Nominating and

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

Governance Committee, and the Audit Committee of the Corporation be “independent” as defined in Section 303A.02 of the NYSE Listed Company Manual, (2) in determining the independence of members of the Compensation Committee, the Board also consider factors set forth in Section 303A.02(a)(ii) of the NYSE Listed Company Manual, and (3) all members of the Audit Committee also be “independent” as defined in Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”);

WHEREAS, the Board has considered Section 3 and Appendix A of the Corporation’s Corporate Governance Guidelines, which establish categorical standards for “independence” of directors;

WHEREAS, the Board has considered Section 303A.07 of the NYSE Listed Company Manual, which requires that (1) each member of the Corporation’s Audit Committee be financially literate, or become so within a reasonable period of time after appointment to the Audit Committee, and (2) at least one member have accounting or related financial management expertise, as such qualification is interpreted by the Board in its business judgment, taking into account that each “audit committee financial expert” as defined in Item 407 of Regulation S-K may be presumed to have such expertise;

WHEREAS, based on the Questionnaires, Mr. Smith has indicated that, through education or experience, he has an understanding of generally accepted accounting principles and financial statements; and

WHEREAS, the Board has considered Mr. Smith’s other responses to the Questionnaire.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby affirmatively determines that William L. Smith is (a) independent, as independence is defined in Section 303A.02 of the NYSE Listed Company Manual (taking into account the Compensation Committee factors set forth in Section 303A.02(a)(ii) of the NYSE Listed Company Manual) and as provided in the categorical independence standards adopted by the Board, including the

BOARD MEETING – December 10, 2020  
PG&E CORPORATION

requirement that an independent director not have material relationships with the Corporation, and (b) independent for purposes of service on the Audit Committee, as “independence” is defined in Rule 10A-3(b)(1) under the Exchange Act;

BE IT FURTHER RESOLVED that the Board affirms that William L. is “financially literate”; and

BE IT FURTHER RESOLVED that the officers and counsel of the Corporation are hereby jointly and severally authorized and directed to provide any required written affirmation or certification on behalf of the Corporation to the NYSE that the Board has made such determinations regarding Mr. Smith’s independence and required qualifications, as described above.

PRIVILEGED AND CONFIDENTIAL<sup>1</sup>  
BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

A video conference meeting of the Board of Directors of Pacific Gas and Electric Company (Utility) was held on Thursday, December 10, 2020, at 12:45 p.m. The meeting was held concurrently with a meeting of the PG&E Corporation (Corporation and, together with the Utility, the Companies) Board of Directors.

Directors Cheryl F. Campbell, Kerry W. Cooper, Jessica L. Denecour, Mark E. Ferguson III, Robert C. Flexon, W. Craig Fugate, Arno L. Harris, Michael A. Lewis, Michael R. Niggli, Dean L. Seavers, William L. Smith, Oluwadara J. Treseder, Benjamin F. Wilson, and John M. Woolard attended by video conference, as permitted by the Utility's Bylaws. Director Rajat Bahri was absent.

Also participating by video conference at the beginning of the meeting were Patricia K. Poppe, Brian M. Wong, and Jenny Kan.

Quorum present, Mr. Flexon, Chair of the Board of the Corporation, presided as chair of the concurrent meeting. Mr. Wong served as secretary of the meeting.

Mr. Wong and Ms. Kan were excused, and the meeting was convened in executive session. He was informed that the following discussions took place:

- Mr. Smith led a discussion on the 2021 Company Goals around safety, wildfire mitigation, people, customer, commitments, relentless execution, risk-informed work & resource plan, and financial stability.

The Board concluded its executive session, and Mr. Wong and Ms. Kan were recalled. The Board convened in regular session and Michael A. Lewis, Francisco Benavides, Sumeet Singh, Christopher A. Foster, and J. Ellen Conti entered the meeting, along with Todd W. Filsinger of Filsinger Energy Partners, Charles J. Kalil II and Christopher W. Keegan of Kirkland and Ellis LLP, and Darrell Smith of NorthStar Consulting Group present.

Mr. Wong opened the meeting with a moment of silence for Utility employees who had passed away since the previous Board meeting.

Referring to materials that had been provided to the directors in advance of the meeting and that are included in the records of this Board, Mr. Benavides presented a tailboard on Process Safety Management and how it is applied to the Utility's natural gas system in order to prevent low frequency, high consequence incidents. He reported updated metrics on safety performance, including SIF (Serious Injuries and Fatalities) and DART (Days Away, Restricted, Transfer Duty), as well as the safety responses to the enterprise employee survey. The directors

---

<sup>1</sup> Certain portions of these minutes are attorney-client privileged and confidential, and are identified as such.

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

asked questions, including the breakdown of safety incidents by field and office workers, and regarding alignment with best practices in the industry.

During the foregoing discussion, William V. Manheim, John R. Simon, Fong Wan, James M. Welsch, and Angela Anderson and Douglas A. Bennett of NorthStar Consulting Group entered the meeting.

Mr. Lewis presented a report on the Utility’s operations, which are included in the records of this Board. He reported on the status and lessons learned on the compliance matters previously raised in the Federal Monitor’s report, shared a progress update on the 2020 Wildfire Mitigation Plan, and gave an overview of the 2020 Public Safety Power Shutoff events. The directors asked questions, and a discussion ensued.

At this point, Ms. Anderson, Mr. Bennett, Mr. Filsinger, Mr. Kalil, Mr. Keegan, and Mr. D. Smith were excused.

[THE FOLLOWING PARAGRAPH CONTAINS ATTORNEY-CLIENT PRIVILEGED AND CONFIDENTIAL INFORMATION.]

[REDACTED]

[END OF PRIVILEGED AND CONFIDENTIAL INFORMATION.]

Following the discussion, Messrs. Manheim, Wan, and Welsch left the meeting and Ms. Anderson, Mr. Bennett, Mr. Filsinger, Mr. Kalil, Mr. Keegan, and Mr. D. Smith were re-admitted.

Referring to Board materials, Mr. Singh presented on wildfire risk model improvements and how the risk models inform the 2021 wildfire risk reduction workplans. The directors asked questions and discussed, among other matters, risk modeling, the data sources for the wildfire risk models, the use of remote sensing data, risk profile curve and associated costs, and knowledge sharing with external agencies.

Mr. Foster reviewed the Financial and Business Highlights report for October 2020 in the Board materials. He discussed the financial performance and liquidity at the Corporation and Utility, and the upcoming Fire Victim Trust offering. The directors asked questions and a discussion ensued.

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

During the foregoing discussion, Jessica Hogle and Robert S. Kenney joined the meeting.

Ms. Hogle and Mr. Kenney led a discussion on federal and state legislative and regulatory matters, which are reflected in the Board materials. Among other things, they discussed the legislative outlook in California and at the federal level, appointment of Liane Randolph as the Chair of the California Air Resources Board, and rollout of COVID-19 vaccinations. A discussion ensued, during which the Board asked questions, including the potential for investment tax credits for hydrogen and carbon capture.

At this point, (i) Ms. Hogle and Mr. Kenney left the meeting, (ii) Ms. Anderson, Mr. Bennett, Mr. Filsinger, Mr. Kalil, Mr. Keegan, and Mr. D. Smith were excused, and (iii) Stephen Cairns, Ajay Waghay, Alejandro Vallejo, and Kevin Orsini of Cravath Swaine & Moore LLP joined the meeting.

[THE FOLLOWING PARAGRAPH CONTAINS ATTORNEY-CLIENT PRIVILEGED AND CONFIDENTIAL INFORMATION.]

[REDACTED]

[REDACTED]

[REDACTED]

[END OF PRIVILEGED AND CONFIDENTIAL INFORMATION.]

At this point, (i) Messrs. Cairns, Waghay, Vallejo, and Orsini left the meeting, (ii) Cliff Gleicher joined the meeting, and (iii) Ms. Anderson, Mr. Bennett, Mr. Kalil, Mr. Keegan, and Mr. D. Smith re-entered the meeting.

Referring to Board materials, Mr. Gleicher led a Director Code of Conduct training, including best practices for setting the “tone at the top.” In that context, he presented the story of The Boeing Company and the 737 Max, in addition to discussing the Federal sentencing guidelines and the U.S. Department of Justice’s criteria for evaluating corporate compliance programs.

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

The Directors asked questions and discussed, among other items, virtual actions to take during the COVID-19 pandemic to create and foster a culture of ethics and compliance and ways to engage with company leaders and employees. During the foregoing discussion, Mr. Bennett left the meeting.

After the discussion, Mr. Gleicher left the meeting.

Mr. Wong next presented the minutes of the prior meetings for the Boards' approval.

On motion made and seconded, the Board approved the minutes of the Board meeting held on October 28, 2020.

Mr. Ferguson, Chair of the Corporation's Compensation Committee, led a discussion on the actions taken and key topics discussed at the committee's most recent meeting. He reported that, among other matters, the Committee reviewed and agreed to recommend that the Boards approve the election of Alejandro Vallejo as Vice President, Compliance & Ethics and Deputy General Counsel of the Utility, and Brian M. Wong as General Counsel of the Utility. Mr. Ferguson also noted that the Committee proposed changes to the recommended action regarding the rescission of CEO ground transportation benefit and would be submitted as an action by written consent. The directors discussed the proposed actions.

On motion made and seconded, the Boards adopted a resolution electing Alejandro Vallejo as Vice President, Compliance & Ethics and Deputy General Counsel of the Utility, and Brian M. Wong as General Counsel of the Utility, as presented (see Resolution 1 in Attachment A).

Mr. Keegan left the meeting at this point.

Mr. Seavers, Chair of the Corporation's Finance Committee, led a discussion on the Finance Committee's recommendations that the Boards (i) approve expenditures and execution of the related agreements for the Butte County Rebuild – Phase 2 capital project, (ii) approve proposed amendments to the Capital Projects Review Criteria, and (iii) concur with operating expense and capital expenditure budgets in the 2021 Financial Performance Plan. Mr. Seavers reviewed the background and reasons for the proposed actions. The directors asked questions, and a discussion ensued.

On motion made and seconded, the Board (i) approved expenditures and execution of the related agreements for the capital project, (ii) approved to increase current thresholds for Committee review and approval of PG&E Corporation and Utility capital projects and divestitures, and (iii) concurred with operating expense and capital expenditure budgets on the 2021 Financial Performance Plan (see Resolution 2 in Appendix A).

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

Mr. Flexon, Chair of the Corporation's Nominating and Governance Committee presented a report and led a discussion on the actions taken and key topics discussed at the committee's most recent meeting, as described in materials that had been provided to the directors in advance of the meeting and that are included in the records of this Board. He reported that, among other matters, the Committee reviewed and agreed to recommend that the Boards (i) approve the skills matrix, (ii) reassess the Board leadership structure, (iii) set the time and date of Annual Meeting of Shareholders and set the record date for shares entitled to vote at Annual Meeting, (iv) approve amendments to Corporate Governance Guidelines, and (v) determine Bill Smith's independence. He invited questions and discussion on these recommendations.

After discussion, on motion made and seconded, the Boards approved (i) the Director skills matrix, (ii) Board leadership structure, (iii) time and date of the Annual Meeting of Shareholders, and record date for shares entitled to vote at the Annual Meeting, (see Resolution 3 in Appendix A), (iv) amendments to Corporate Governance Guidelines, and (v) independence of Bill Smith (see Resolution 4).

Ms. Campbell, Chair of the Utility's Safety and Nuclear Oversight (SNO) Committee, presented the committees' third quarter 2020 report to the Boards on the Utility's progress against its 2020 Wildfire Mitigation Plan. This included a discussion of materials that had been provided to the directors in advance of the meeting and that are included in the records of this Board. The directors asked questions, and a discussion ensued.

Ms. Denecour, Chair of the Corporation's Technology and Cybersecurity Committee, reported on and led a discussion on the actions taken and key topics discussed at the committee's most recent meeting.

Mr. Wilson, Chair of the Utility's Audit Committee, reported on the actions taken and key topics discussed at the most recent Audit Committee meeting.

Mr. Woolard, Chair of the Corporation's Compliance and Public Policy (CPP) Committee, reported on and led a discussion on the actions taken and key topics discussed at the most recent CPP Committee meeting.

At this point, Mr. Lewis, Mr. Simon, Mr. Benavides, Mr. Singh, Mr. Foster, Mr. Wong, Ms. Kan, Mr. Kalil, Mr. Keegan, Ms. Anderson left the meeting, and the Board continued in executive session with Ms. Poppe and Mr. Smith present.

Ms. Poppe and Mr. Smith were excused and the independent directors met in executive session to discuss various matters.

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

There being no further business presented for action, on motion made and seconded, the meeting was adjourned at 6:00 p.m.

BRIAN M. WONG  
Secretary

**ATTACHMENT A**

**Resolution 1**

WHEREAS, the PG&E Corporation Compensation Committee has recommended that the Board of Directors of Pacific Gas and Electric Company elect Alejandro Vallejo as Vice President, Compliance & Ethics and Deputy General Counsel, as indicated in materials presented to the Committee and this Board,

AND WHEREAS, the PG&E Corporation Compensation Committee has recommended that the Board of Directors of Pacific Gas and Electric Company elect Brian Wong as General Counsel, in addition to his current officer position as Vice President and Corporate Secretary, as indicated in materials presented to the Committee and this Board.

BE IT RESOLVED that the Board of Directors of Pacific Gas and Electric Company hereby elects Alejandro Vallejo as Vice President, Compliance & Ethics and Deputy General Counsel, and

BE IT RESOLVED that the Board of Directors of Pacific Gas hereby elects Brian Wong as General Counsel, in addition to his officer positions as Vice President and Corporate Secretary, as presented to this Board.

**Resolution 2**

BE IT RESOLVED that this Board of Directors shall approve the annual capital and operating budgets of this company, which shall incorporate the annual capital and operating budgets of the company's subsidiaries.

BE IT FURTHER RESOLVED that it is the policy of this Board that capital projects and annual capital budgets shall be approved by this Board prior to commitment or

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

expenditure of funds by this company or its subsidiaries. Specifically, it is this Board's policy that, effective January 1, 2021:

1. This Board of Directors and the Board of Directors of PG&E Corporation shall approve capital projects by this company or its subsidiaries involving estimated capital costs or expenses of \$250 million or more.
2. The Finance Committee of the PG&E Corporation Board of Directors shall review and make recommendations to this Board with respect to all capital projects and annual capital budgets that require approval by this Board.
3. The Chief Executive Officer of PG&E Corporation, or such officer's designee, shall approve capital projects of this company or its subsidiaries involving estimated capital costs or expenses of less than \$250 million. Any authority delegated by the Chief Executive Officer of PG&E Corporation pursuant to this resolution may be delegated and sub-delegated further with the concurrence of the Chief Executive Officer of PG&E Corporation.
4. All approvals of capital projects and annual capital budgets subject to this resolution shall be obtained prior to commitment or expenditure of funds by this company or its subsidiaries, with the exception of (a) increases in capital costs or expenses associated with an individual capital project that do not exceed \$50 million or 10 percent of the total estimated project costs originally approved by the Board for that project, whichever is less, (b) increases in capital expenditures that do not exceed \$50 million or 10 percent of the annual capital budget approved by the Board for this company, whichever is less, (c) emergency restorative work immediately following sudden damage to facilities resulting from equipment failures, storms, floods, or other catastrophic events requiring urgent work to repair or replace facilities and restore service or ensure safety, and (d) emergency preventive work undertaken to avert or mitigate significant imminent safety hazards to employees or to the public, or to avert significant imminent damage to facilities, or to avert significant imminent service interruptions to customers.

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

BE IT FURTHER RESOLVED that it is the policy of this Board that the divestiture in any manner of any asset, investment, real or personal property, or business interest of this company or its subsidiaries shall be approved in advance by this Board if such assets, investments, real or personal property, or business interests have a value above specified amounts. Specifically, it is this Board's policy that, effective January 1, 2021:

1. This Board of Directors and the Board of Directors of PG&E Corporation shall approve the divestiture, in any manner, of any asset, investment, real or personal property, or business interest of this company or its subsidiaries if the book value or the anticipated market value of the asset, investment, real or personal property, or business interest is \$250 million or more.
2. The Finance Committee of the PG&E Corporation Board of Directors shall review and make recommendations to this Board with respect to the divestiture, in any manner, of any asset, investment, real or personal property, or business interest of this company or its subsidiaries if such divestiture requires approval by this Board.
3. The Chief Executive Officer of PG&E Corporation, or such officer's designee, shall approve the divestiture, in any manner, of any asset, investment, real or personal property, or business interest of this company or its subsidiaries if the book value or the anticipated market value of the asset, investment, real or personal property, or business interest is less than \$250 million. Any authority delegated by the Chief Executive Officer of PG&E Corporation pursuant to this resolution may be delegated and sub-delegated with the concurrence of the Chief Executive Officer of PG&E Corporation.

BE IT FURTHER RESOLVED that the resolution on this subject adopted by the Board of Directors on September 20, 2006 is hereby superseded.

**Resolution 3**

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

BE IT RESOLVED that the 2021 annual meeting of shareholders of Pacific Gas and Electric Company shall be held at ten o'clock a.m. on Thursday, May 20, 2021, at the Pacific Gas and Electric Company Auditorium, 245 Market Street, San Francisco, California, with an opportunity for shareholders to attend by videoconference or other electronic communication; provided that the 2021 annual meeting of shareholders may, to the extent permitted by law, be held entirely by videoconference or other electronic communication in response to public safety or similar concerns; and

BE IT FURTHER RESOLVED that March 22, 2021 is hereby fixed as the record date for the determination of shareholders entitled to receive notice of and to vote at said annual meeting and at any adjournment thereof.

**Resolution 4**

WHEREAS, Mr. Smith has served as Interim Chief Executive Officer (CEO) of PG&E Corporation, the Company's parent holding company, since July 1, 2020, and is expected to terminate such service on January 3, 2021, and thus will have served as interim CEO of PG&E Corporation for approximately six months; and

WHEREAS, service as Interim CEO of PG&E Corporation for less than twelve months does not compromise Mr. Smith's ability to otherwise be deemed independent pursuant to the rules of the New York Stock Exchange (NYSE) or this company's Corporate Governance Guidelines; and

WHEREAS, Mr. Smith submitted a completed 2020 Director and Officers Questionnaire (the "Questionnaire"), and such Questionnaire did not disclose any relationships that the Mr. Smith believed might compromise his independence;

WHEREAS, based on the Questionnaire and additional information provided by Mr. Smith, management found no relevant business, board interlocks or auditor affiliations that could compromise independence; and Mr. Smith did not report receiving compensation from sources other than his prior employer(s); and Mr. Smith did not report that he or his immediate

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

family members received consulting, advisory, or compensatory fees from the Utility or its subsidiaries or affiliates, and did not report any affiliations with the Utility;

WHEREAS, based on the Questionnaires and other information provided by Mr. Smith, and to assess Mr. Smith's independence for purposes of serving on the Audit Committee, management specifically reviewed information relating to (1) sources of compensation paid to Mr. Smith, (2) the existence of direct or indirect payments of consulting, advisory, or other compensatory fees since 2017 from the Utility and its subsidiaries and affiliates to Mr. Smith and his immediate family members, and (3) whether Mr. Smith is affiliated with the Utility or its subsidiaries or their affiliates; and Mr. Smith did not report receiving compensation<sup>1</sup> from sources other than his prior employer(s), Mr. Smith did not report that he or his immediate family members received consulting, advisory, or compensatory fees from the Utility or its subsidiaries or affiliates, and Mr. Smith did not report any affiliations with the Utility;

WHEREAS, consistent with implementation of the POR, all members of the Board of Directors (other than the Chief Executive Officer of the Company and the Chief Executive Officer of PG&E Corporation) must be independent as defined by the New York Stock Exchange ("NYSE");

WHEREAS, the Board has considered Section 303A.0 of the NYSE Listed Company Manual, which sets forth the NYSE independence standards;

WHEREAS, the Board has considered Section 3 and Appendix A of the Utility's Corporate Governance Guidelines, which establish categorical standards for "independence" of directors;

WHEREAS, the Board has considered Sections 801(g) and 803(B)(2)(a)(i) of the NYSE American Company Guide, which require that all members of the Utility's Audit Committee also be "independent" to the extent required by the NYSE American Company Guide and Rule 10A-3 of the Securities Exchange Act of 1934, as amended (the "Exchange Act");

BOARD MEETING – December 10, 2020  
PACIFIC GAS AND ELECTRIC COMPANY

WHEREAS, based on the Questionnaires, Mr. Smith has indicated that, through education or experience, he has an understanding of generally accepted accounting principles and financial statements; and

WHEREAS, the Board has considered Mr. Smith's other responses to the Questionnaire.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby affirmatively determines that William L. Smith is (a) independent, as independence is provided in the NYSE listing standards and the Utility's Corporate Governance Guidelines, including the categorical independence standards adopted by the Board, and including the requirement that an independent director not have material relationships with the Utility and (b) independent for purposes of service on the Audit Committee, as "independence" is defined in Rule 10A-3(b)(1) under the Exchange Act; and

BE IT FURTHER RESOLVED that the Board affirms its determination Mr. Smith is "financially literate";

BE IT FURTHER RESOLVED that the officers and counsel of the Utility are hereby jointly and severally authorized and directed to provide any required written affirmation or certification on behalf of the Utility to the NYSE American that the Board has made such determinations regarding Mr. Smith's independence and required qualifications, as described above;

COMPENSATION COMMITTEE OF THE  
BOARD OF DIRECTORS OF PG&E CORPORATION AND SAFETY AND NUCLEAR  
OVERSIGHT COMMITTEES OF THE BOARD OF DIRECTORS OF PG&E  
CORPORATION AND PACIFIC GAS AND ELECTRIC COMPANY

November 25, 2020

A videoconference meeting of the Compensation Committee of the Board of Directors of PG&E Corporation (Corporation) was held at 8:00 a.m. on Wednesday, November 25, 2020. The meeting was held concurrently with a meeting of the Pacific Gas and Electric Company (Utility and, together with the Corporation, the Companies) SNO Committee and with the Safety and Nuclear Oversight (SNO) Committee of the Board of Directors of Corporation.

Compensation Committee members Mark E. Ferguson III, Jessica L. Denecour, Robert C. Flexon, and Oluwadara J. Treseder attended by video conference as presented by the Corporation's Bylaws.

SNO Committee members Cheryl F. Campbell, W. Craig Fugate, Mark E. Ferguson III, and Michael Niggli, attended by video conference, as permitted by the Corporation's Bylaws. SNO Committee member Dean Seavers was absent.

Also participating by video at the beginning of the meeting was director Kerry W. Cooper as well as William L. Smith, Francisco Benavides, Christopher Foster, Debbie Powell, James Welsch, John Simon, Keith Stephens, Mary King, Robert Kenney, Sumeet Singh, Lisa Laanisto, Lisa Crawford and Sujata Pagedar. Patricia K. Poppe attended as a guest.

Quorum present, Mr. Ferguson, Chair, presided over the meeting. Ms. Lisa Crawford served as secretary of the meeting.

Ms. King opened the discussion of proposed metrics for the 2021 Short Term Incentive Plan and the 2021 Long Term Incentive Plan, including a discussion of the materials that had been provided to committee members in advance of the meeting and that are included in the records of this Committee. Mr. Singh and Mr. Benavides discussed specific metrics related to wildfire risk and safety. The Committee members asked questions and discussed various aspects of the presentation, including questions about benchmarking the proposed metrics with other utilities and questions about how the metrics reflect the work being performed in key areas and how results would be documented and verified. The SNO Committee members advised the Compensation committee members on the metrics being proposed, and the Compensation Committee members agreed to consider the SNO Committee member's feedback in further evaluations of the 2021 Short Term Incentive Plan and the 2021 Long Term Incentive Plan.

COMPENSATION COMMITTEE -  
PG&E CORPORAITON – NOVEMBER 25, 2020

There being no further business presented for action, on motion made, seconded, and carried, the meeting was adjourned at 9:00 a.m.

SUJATA PAGEDAR  
Secretary

AUDIT COMMITTEE OF THE  
BOARD OF DIRECTORS OF  
PACIFIC GAS AND ELECTRIC COMPANY  
December 9, 2020

A meeting of the Audit Committee of the Board of Directors of Pacific Gas and Electric Company (Utility) was held by video conference on Wednesday, December 9, 2020, at 7:30 a.m. Pacific Time. The meeting was held concurrently with a meeting of the PG&E Corporation (Corporation, and together with the Utility, the Companies) Audit Committee. The first portion of the meeting also was held concurrently with the Companies' Safety and Nuclear Oversight (SNO) Committees.

Audit Committee members Benjamin F. Wilson, Robert C. Flexon, and Kerry W. Cooper participated by videoconference, as permitted by California law and the Companies' Bylaws. Rajat Bahri was absent. SNO Committee members present were Cheryl F. Campbell, Mark E. Ferguson, III, W. Craig Fugate, and Dean L. Seavers. Michael R. Niggli was absent. Directors John M. Woolard and Jessica L. Denecour also attended the call.

William L. Smith, Michael A. Lewis, John R. Simon, Christopher A. Foster, James M. Welsch, Christine E. Cowsert, David S. Thomason, Cliff Gleicher, Sumeet Singh, Stephen J. Cairns, Elizabeth Min, Christopher Pezzola, Justyna Lloyd, Brian M. Wong, Sujata Pagedar, and Lisa J. Crawford, and Tim Gillam and Ellen Basilico of Deloitte & Touche, Todd Filsinger of Filsinger Energy Partners, Doug Bennett of NorthStar Consulting Group, and Christopher W. Keegan, Partner, Kirkland and Ellis LLP also participated in the meeting.

Quorum present, Mr. Wilson, Chair of the Committee, presided over the meeting. Ms. Crawford served as secretary of the meeting.

**BEGINNING OF CONCURRENT SESSION OF THE AUDIT COMMITTEES AND  
SAFETY AND NUCLEAR OVERSIGHT (SNO) COMMITTEES**

Referring to materials that had been provided to the Committees in advance of the meeting and that are included in the records of the meeting, Mr. Pezzola provided an update on high-risk audit issues for the third quarter of 2020, including, two issues that have since been closed since the last meeting. The Audit and SNO Committees asked questions about the existence of interim controls for the open issues and requested more visibility into long-dated items, data system management and tracking of milestone projects and a discussion ensued. Internal Audit committed to providing information on key milestones for any issue with an approved extension past the 180-day closure requirement.

Mr. Cairns presented for the Audit Committee's approval the proposed amended Internal Auditing (IA) mission statement, which had been provided to the Audit and SNO Committee members in advance of the meeting and which is included in the records of this Audit and SNO Committee.

AUDIT COMMITTEE MEETING  
PACIFIC GAS AND ELECTRIC COMPANY– December 9, 2020

Following discussion, upon motion made and seconded, the Audit Committee approved the amended IA mission statement, as presented.

Mr. Pezzola, referring to the Board materials reviewed the 2021 Audit Plan, including, enterprise and ramp risks as a major part of the plan. Key statistics and focus on the core operating lines of business were highlighted. The Audit and SNO Committees asked questions regarding staffing levels and expertise and a discussion ensued. The Audit Committee also requested that customer affordability be audited and put in the Audit Plan.

Upon motion made and seconded, the 2021 Audit Plan was approved by the Audit Committee as presented.

Mr. Singh joined the meeting; Mr. Gillam and Ms. Basilico leave the meeting.

Mr. Singh, referring to materials that had been provided to the Audit and SNO Committees in advance of the meeting and that are included in the records of the meeting reviewed the Enterprise and Operational Risk Management Program update and the Audit Committee oversight responsibilities, including, the proposed modifications to the list of enterprise risks that are overseen by the Boards of PG&E Corporation and Pacific Gas and Electric Company and their committees, and the proposed allocation of oversight responsibilities for enterprise risks.

During the discussion Mr. Singh noted for the Committees that the Business Model Risk should not be included on the list of enterprise risks subject to Board-level oversight and asked the Audit Committee to approve the list of such risks provided with the understanding that the Business Model Risk was not a part of the list. The Audit and SNO Committees asked questions regarding the priority of risks and the difference between risks and compliance and how the company approached each and a discussion ensued.

Upon motion made and seconded, the Audit Committee approved the proposed modifications to the list of enterprise risks that are overseen by the Boards of PG&E Corporation and Pacific Gas and Electric Company and their committees, without including the Business Model Risk, and the allocation of such risks to proposed committees for oversight.

**END OF CONCURRENT SESSION OF THE AUDIT COMMITTEES AND SAFETY  
AND NUCLEAR OVERSIGHT (SNO) COMMITTEES**

Mr. Singh, Mr. Bennett, Mr. Filsinger and Mr. Keegan leave the meeting; Mr. Gillam and Ms. Basilico re-enter the meeting.

Referring to the Board materials Mr. Gillam discussed D&T's letter to the Audit Committees of the Corporation and the Utility dated December 10, 2019 that summarizes the firm's internal quality control procedures.

AUDIT COMMITTEE MEETING  
PACIFIC GAS AND ELECTRIC COMPANY– December 9, 2020

Mr. Gillam highlighted various sections of D&T's draft integrated audit plan for 2021, including a summary of the engagement team and other D&T personnel who will be involved in audits throughout the year and the requirement for D&T to appoint a new lead auditor for PG&E Corporation. D&T is selected as the company's independent external auditor for the year ending December 31, 2022. Mr. Gillam next discussed significant risks and other areas of audit focus for 2021 risk assessment as an important part of D&T's audit approach and scoping process. The Committee asked questions regarding diversity of the D&T team and D&T's diversity hiring protocols and a discussion ensued.

Mr. Gilliam and Ms. Basilico left the meeting.

Following Committee discussion and review of D&T's qualifications and proposed fees, on motion made and seconded, the Committee (1) pre-approved adjustments to the scope of various D&T audit services for the year ending December 31, 2020, up to the adjusted specified fee amounts, (2) appointed D&T as PG&E Corporation's external auditors for the year ending December 31, 2021, (3) pre-approved audit and review services for the year ending December 31, 2021 related to the engagement of D&T as the external auditors, up to specified fee amounts, and (4) pre-approved non-audit services anticipated to be provided to PG&E Corporation by D&T for the year ending December 31, 2021, up to specified fee amounts, all as presented.

Ms. Cowser and Ms. Min left the meeting.

*[THE FOLLOWING PARAGRAPH CONTAINS ATTORNEY-CLIENT PRIVILEGED AND CONFIDENTIAL INFORMATION.]*

[REDACTED]

*[END OF ATTORNEY-CLIENT PRIVILEGED AND CONFIDENTIAL INFORMATION.]*

Mr. Wilson presented the October 27, 2020 minutes for approval. The Committee asked questions as to how the minutes should be drafted regarding Committee discussions and questions and the Committee requested that the minutes be modified and presented for approval at the February meeting.

AUDIT COMMITTEE MEETING  
PACIFIC GAS AND ELECTRIC COMPANY– December 9, 2020

Mr. Smith, Mr. Lewis, Mr. Simon, Mr. Foster, Mr. Thomason, Mr. Cairns, Mr. Pezzola, and Mr. Wong and Ms. Lloyd and Ms. Crawford left the meeting; Mr. Gilliam and Ms. Basilico re-joined the meeting.

The Committee met in executive session with the D&T representatives. Following the executive session, the secretary was informed that the Committee discussed with D&T various upcoming disclosure matters.

Mr. Gilliam and Ms. Basilico left the meeting; Mr. Cairns and Mr. Pezzola re-joined the meeting.

The Committee met in executive session with Internal Audit. Following the executive session, the secretary was informed that the Committee discussed, among other things how Internal Audit interacts with the roles of risk and compliance, and the adequacy of resources within Internal Audit.

There being no further business presented for action, on motion made, seconded, and carried, the meeting was adjourned at 9:52 a.m.

LISA J. CRAWFORD  
Secretary

SAFETY AND NUCLEAR OVERSIGHT COMMITTEE OF THE  
BOARD OF DIRECTORS OF PACIFIC GAS AND ELECTRIC COMPANY

December 10, 2020

A videoconference meeting of the Safety and Nuclear Oversight (SNO) Committee of the Board of Directors of Pacific Gas and Electric Company (Utility) was held at 7:30 a.m. on Thursday, December 10, 2020. The meeting was held concurrently with a meeting of the PG&E Corporation (Corporation and, together with the Utility, the Companies) SNO Committee.

Committee members Cheryl F. Campbell, Dean L. Seavers, W. Craig Fugate, Mark E. Ferguson III, and Michael Niggli, attended by video conference, as permitted by the Corporation's Bylaws

Also participating by video at the beginning of the meeting were directors Jessica L. Denecour, Kerry W. Cooper, Robert C. Flexon, Benjamin Wilson, and John M. Woolard as well as William L. Smith, Michael Lewis, Francisco Benavides, John R. Simon, James M. Welsch, Stephen J. Cairns, Sumeet Singh, Christine Cowsert, Mark Quinlan, Christopher Pezzola, Jenny Kan, and Sujata Pagedar, along with Angela Anderson, Darrell Smith and Doug Bennett of NorthStar Consulting Group, Todd W. Filsinger of Filsinger Energy Partners, and Charles Kalil of Kirkland & Ellis LLP.

Quorum present, Ms. Campbell, Chair, presided over the meeting. Ms. Pagedar served as secretary of the meeting.

Mr. Benavides opened the meeting with a safety tailboard on winter driving, describing employee training on defensive driving. Mr. Benavides then presented a report on the Companies' safety performance and metrics, including an update on the investigations into the causes of safety incidents. Mr. Quinlan discussed an arc flash incident, including actions taken to understand the causes of the incidents and to prevent recurrence. Mr. Benavides continued with a discussion of an employee fatality, including actions taken to understand the causes of the incident and to prevent recurrence. Mr. Benavides then led a discussion of the materials that had been provided to committee members in advance of the meeting and that are included in the records of this Committee. The Committee members asked questions and discussed various aspects of Mr. Benavides's presentation, including how the metrics reflect different groups of employees.

Mr. Quinlan left the meeting at this point, and Mr. Gary Parkey of the Nuclear Safety Oversight Committee joined the meeting.

Mr. Welsch presented an update on nuclear performance, which included a discussion of materials that had been provided to the Committee members in advance of the meeting and that are included in the records of this Committee. Among other things, he discussed reliability, safety and performance indicators at Diablo Canyon Power Plant, as well as

SAFETY AND NUCLEAR OVERSIGHT COMMITTEE -  
PACIFIC GAS AND ELECTRIC COMPANY – December 10, 2020

an update on outages at the facility. The Committee members asked questions and discussed various aspects of Mr. Welsch's presentation, including questions about the status of the outages.

Mr. Parkey shared the results of the Nuclear Safety Oversight Committee's evaluation of the nuclear facility and the conclusion that the facility is being operated in a manner that promotes safety. This included a discussion of materials that had been provided to the Committee members in advance of the meeting and that are included in the records of this Committee. The Committee members asked questions and discussed various aspects of Mr. Parkey's presentation, including the Nuclear Safety Oversight Committee's future areas of focus.

Mr. Parkey left the meeting at this point, and Ms. Deborah Powell entered the meeting.

Ms. Powell provided an update on the progress on the 2020 Wildfire Mitigation Plan. This included a discussion of materials that had been provided to the Committee members in advance of the meeting and that are included in the records of this Committee. Among other things, Ms. Powell and the members of the Committee discussed various metrics to measure the execution of the plan.

Ms. Powell then shared a risk assessment for the risk of Wildfire, together with Mr. Singh. This included a discussion of materials that had been provided to the Committee members in advance of the meeting and that are included in the records of this Committee. Among other things, Ms. Powell and Mr. Singh discussed mitigations and key risk indicators. The Committee members asked questions about risk evaluations and governance over the mitigation work performed.

Ms. Powell left the meeting, and Ms. Jessica Hogle entered the meeting at this point.

Mr. Singh provided a brief transition to the topic of the impact of climate change on the company. Ms. Hogle led a discussion of the cross-cutting factor of climate change, including a discussion of materials that had been provided to the Committee members in advance of the meeting and that are included in the records of this Committee. Among other things, Ms. Hogle described how climate change caused heat, flooding and other severe weather that impacted company assets, and discussed opportunities to use climate data in decision-making. The Committee members asked questions about the presentation, including questions on the severity of potential impacts on physical assets.

The Committee then discussed the 2021 Workplan for the Committee, which was included in the materials that had been provided to the Committee members in advance of the meeting and that are included in the records of this Committee.

SAFETY AND NUCLEAR OVERSIGHT COMMITTEE -  
PACIFIC GAS AND ELECTRIC COMPANY – December 10, 2020

On motion made and seconded, the minutes of the Committee meeting held on October 27, 2020 were approved.

Mr. Lewis, Mr. Benavides, Mr. Simon, Mr. Welsch, Mr. Cairns, Mr. Singh, Ms. Cowsert, Ms. Hogle, Ms. Kan, Ms. Pagedar, Ms. Anderson, Mr. Smith, Mr. Bennett, Mr. Filsinger, and Mr. Kalil were excused and the meeting continued in executive session with Mr. Smith, Ms. Campbell, Mr. Seavers, Mr. Fugate, Mr. Ferguson, Mr. Niggli, Ms. Denecour, Ms. Cooper, Mr. Flexon, Mr. Wilson, and Mr. Woolard present.

Ms. Pagedar was recalled and informed that the Committee members continued their discussion regarding several of the topics covered earlier in the meeting .

There being no further business presented for action, on motion made, seconded, and carried, the meeting was adjourned at 10:30 a.m.
